Mike and Terry,

Tetra Tech is preparing to start the soil remediation on the above reference sites. The remediation will be performed according to the approved work plan. COG is currently working on some of the approved remediation sites. Once these sites area completed, the equipment will be moved the next site. We anticipate the work will start on Thursday (3-24-11) on the JR Horz and the Woolley Fed. #7 on Friday (3-25-11). As discussed, some of the current remediation projects have been delayed, which could also delay these upcoming sites. We will call if the remediation schedule changes or if your in the area, call me to check on any delays on the projects. We will call on on each phase of the project. Let me know if you need additional information, thanks

Mike and Terry,

Tetra Tech will be onsite tomorrow morning (12-29-10) to assess the spill area at the JR's Horz Federal Tank Battery. Soil samples will be collected using a hand auger to delineate the spill area. The Wooley Federal #7 Flow line will be assessed on Thursday (12-30-10). Once defined, the work plans will be submitted for your review. We will call you if the schedule changes on each project. Call me if you have any questions, thanks
