NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release 150 bbls	Volume Recovered 140 bbls
Source of Release: Produced Water Trunk Line	Date and Hour of Occurrence 03/27/10 1:16 p.m.	Date and Hour of Discovery 03/27/10 8:30 a.m.

Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher - NMOCD
--	---

By Whom? Rick Wright	Date and Hour 03/27/10
----------------------	------------------------

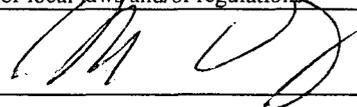

Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A
---	--

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*
Broken tee on a produced water trunk line. The broken tee has been repaired.

Describe Area Affected and Cleanup Action Taken.*
Approximately 150 bbls of produced water was initially released from the trunk line between the Fox and the Weasel tank batteries. A vacuum truck recovered 140 bbls of fluid. The saturated soil was removed and hauled to proper disposal. Tetra Tech inspected site and collected samples to define spills extent. An approved work plan was prepared and implemented. Removed soil was hauled away for proper disposal. Liner was installed in 2 areas. Site was then brought up to surface grade with clean backfill material. Tetra Tech prepared closure report and submitted to NMOCD for review.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
