CURA Environmental and Emergency Services, Inc. would like to provide you with this Advance Notification for the drilling and sampling activities being conducted at the above-captioned site. Our scope of work will consist of the installation of three soil borings to a depth of 5.5 feet below ground surface. A total of six soil samples will be collected per soil boring for chloride analysis.

Drilling and sampling activities are scheduled for May 31, 2012.

If you have any questions please do not hesitate to contact me.
