**REQUEST FOR ADMINISTRATIVE APPROVAL  
APACHE CORPORATION'S  
JACKRABBIT STATE 3  
30-015-42862  
181' FNL & 1653' FEL  
SECTION 32, T. 17 S., R. 28 E., EDDY COUNTY, NM**

I. This proposed 5,300' deep oil well is on private surface and a State oil and gas lease. The well is nonstandard (149' too far north) for the Artesia; Glorieta-Yeso Pool (96830) due to 4 pipelines, a reclaimed reserve pit, and LRE's NW State 16 (30-015-30890), a San Andres well. That well (see EXHIBIT A) is at 330 FNL & 1650 FEL.

Apache requests a nonstandard location due to land uses. The NWNE Section 32 is occupied by 1 P&A well, 1 active water injection well operated by LRE, 2 active oil well operated by LRE, one underground phone line, one overhead three phase power line, one overhead 115 kV power line, 150' wide US 82 right-of-way, and other miscellaneous pipelines, power lines, and roads. In addition, Apache has 3 approved oil wells and COG has an approved sand and gravel pit in the same quarter-quarter.

A standard location must be  $\geq 330'$  from the boundary of the quarter-quarter. In this case, it is 181' from the north side of unit letter B.

II. Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. The well is 149' too far north.

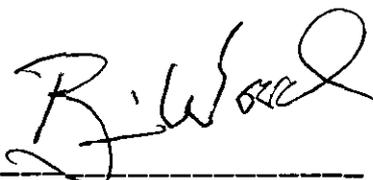

III. Lease boundaries are shown on EXHIBIT C. The well encroaches to the north, northeast, and ~~east~~ Artesia; Glorieta-Yeso dedications exist in unit letter B of Section 32 and all 8 bordering or cornering quarter-quarters. Apache operates the Artesia; Glorieta-Yeso wells in the quarter-quarters toward which the well encroaches. See Exhibit D. This information is current and correct.

IV. Archaeology is not an issue.

V. Surface issues (wells and other infrastructure) and the need to prevent waste and recover additional reserves drive the need for this nonstandard location.

VI. Apache does not believe directional drilling to a standard location is cost effective for this well.

VII. I hereby certify that there is common ownership and partner approval of the State oil and gas lease. The well is nonstandard (149' too far north) for the Artesia; Glorieta-Yeso Pool working interest in the lease which comprises the proposed 40 acre spacing unit (NWNE Section 32) and the adjacent quarter-quarters (S2SE4 Section 29 and NENE Section 32) of the sides and corner toward which it encroaches, and that the information is current and correct. Therefore, notice to any affected party is not required.
