API No. 30-039-20119

Unit I, Section 36, Township 26 North, Range 5 West, NMPM

Rio Arriba County, New Mexico

Pool	BLANCO P. C. SOUTH (PRORATED GAS)	Gas	(72439)
Names:	LINDRITH GALLUP-DAKOTA, WEST	Gas	(39189)

Reference is made to your recent application for an exception to Division Rule 19.15.12.9A. NMAC of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appears that the subject well qualifies for approval for such exception pursuant to the provisions of Division Rule 19.15.12.11A. NMAC, and since reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division Rule 19.15.12.11A. (6) NMAC, the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

As per the application, the assignment of allowable and allocation of production from the subject well shall be based on the remaining reserves in the Blanco P. C. South, and Lindrith Gallup-Dakota-West pools.

Assignment of allowable and allocation of production from the well shall be as follows:

BLANCO P. C. SOUTH (PRORATED GAS)	Pct. Oil: 0	Pct. Gas: 30
LINDRITH GALLUP-DAKOTA, WEST	Pct. Oil: 100	Pct. Gas: 70

It is also understood that notice of this application, pursuant to Division Rule 19.15.4.12A.(6), is not required since the interest ownership between the subject pools to be commingled are common throughout.

REMARKS: The operator shall notify the Aztec District office prior to implementation of the commingling operations.

Pursuant to Division Rule 19.15.12.11B. NMAC, the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.
