**NATURE OF RELEASE**

Type of Release Produced water	Volume of Release 18bbbls	Volume Recovered 2bbbls
Source of Release Water Transfer Line	Date and Hour of Occurrence 4/8/2015 7:00am	Date and Hour of Discovery 4/8/2015
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
A temporary 12" transfer line had a leak at one of the connections which caused a release of approximately 18bbbls of treated produced water. When the leak was discovered the line was repaired and a vacuum truck was dispatched to recover the standing fluid. Approximately 2bbbls of fluid were recovered. Talon/LPE mobilized personnel to conduct an initial site assessment and perform soil sampling activities within the impacted area.

Describe Area Affected and Cleanup Action Taken.\*  
The impacted area is in the pasture just north of the Apache Red Lake 3 Fed #2 (30-015-29802) location and measures approximately 120' x 50'. Talon/LPE mobilized personnel to conduct an initial site assessment and soil sampling utilizing a hand auger. Refusal with the hand auger was encountered at depths varying from 0.75' to 1' deep. A backhoe was mobilized to continue the vertical delineation of chlorides. Refusal with the backhoe was encountered at a depth of 2' deep.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** Lime Rock-Windfohr 4 Federal #012 Water Transfer Line Initial C-141(30-015-42037)  
**Attachments:** 0072\_001.pdf

All,

Please see the attached initial C-141 for the Lime Rock Windfohr 4 Fed #12 water transfer line release. This release did not occur on the Windfohr 4 Fed #12 location, it was in the pasture directly north of the Apache Red Lake 3 Fed #2. Please let me know if you have any questions or concerns.

Respectfully,

**Sheldon L. Hitchcock**
