**REQUEST FOR ADMINISTRATIVE APPROVAL
APACHE CORPORATION'S
JACKRABBIT STATE 4
30-015-42863
330' FNL & 2310' FEL
SECTION 32, T. 17 S., R. 28 E., EDDY COUNTY, NM**

I. This proposed 5,300' deep oil well is on private surface and a State oil and gas lease. The well is nonstandard (34' too far west) for the Artesia; Glorieta-Yeso Pool (96830) due to 2 converging overhead power lines (see EXHIBIT A).

Apache requests a nonstandard location due to land uses. The NWNE Section 32 is occupied by 1 P&A well, 1 active water injection well operated by LRE, 2 active oil well operated by LRE, one underground phone line, one overhead three phase power line, one overhead 115 kV power line, 150' wide US 82 right-of-way, and other miscellaneous pipelines, power lines, and roads. In addition, Apache has 3 approved oil wells and COG has an approved sand and gravel pit in the same quarter-quarter.

A standard location must be $\geq 330'$ from the boundary of the quarter-quarter. In this case, it is 296' from the west side of unit letter B.

II. Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. The well is 34' too far west. Note that Section 32 (below) is smaller than a standard 640 acre section. It has not been broken into lots.

III. Lease boundaries are shown on EXHIBIT C. The well encroaches to the north, northwest, and west. Artesia; Glorieta-Yeso dedications exist in unit letter B of Section 32 and all 8 bordering or cornering quarter-quarters. LRE operates the Artesia; Glorieta-Yeso wells in two of the three quarter-quarters toward which the well encroaches. Apache operates the third quarter-quarter. See Exhibit D. This information is current and correct.

IV. Archaeology is not an issue.

V. Surface issues (power lines and other infrastructure) and the need to prevent waste and recover additional reserves drive the need for this nonstandard location.

VI. Apache does not believe directional drilling to a standard location is cost effective for this well.

VII. I hereby attest that I, on or before the date that the application was submitted to the division, sent notification to the affected persons (see EXHIBIT E) by certified mail, return receipt requested, advising them that if they have an objection it must be filed in writing within 20 days from the date the division receives the application. These affected persons have working or royalty interests in quarter-quarters that border the 40-acre spacing unit. Said notice was sent to:

March 30, 2015

Eric McClusky
LRE Operating, LLC
1111 Bagby St., Suite 4600
Houston, TX 77002

Dear Eric,

As required by New Mexico Oil Conservation Division Rules, I am notifying you of the following nonstandard location (NSL) for a well. This letter is a notice only. No action is needed unless you have questions or objections.

Apache Corporation is applying for NSL approval for its Jackrabbit State 4 oil well. Minimum state distance for such an oil well is 330' from a quarter-quarter line. The well is 34' further west than is standard (see attached application). Thus, it is a nonstandard location. The NSL is due to land uses (overhead power lines and other infrastructure).

Well Name: Jackrabbit State 4 TD: 5,300'
Proposed NSL Zone: Artesia; Glorieta-Yeso (O)
NSL Acreage Dedication: 40 acres (NWNE Section 32, T. 17 S., R. 28 E., Eddy County, NM)
on NMSLO lease XO-0647-0405
Location: ≈12 air mile west of Loco Hills, NM at 330 FNL & 2310 FEL 32-17s-28e
Applicant Name: Apache Corporation (432) 818-1168
Applicant's Address: 303 Veterans Airpark Lane, Suite 300, Midland TX 79705

Submittal Information: Application for a nonstandard location will be filed with the NM Oil Conservation Division (NMOCD). If you have an objection, then it must be filed in writing within 20 days from the date the NMOCD receives the application. The New Mexico Oil Conservation Division address is 1220 South St. Francis Dr. Santa Fe, NM 87505. Their phone number is (505) 476-3440.

Please call me if you have any questions.

Sincerely,

Brian Wood

McMillan, Michael, EMNRD

From: Brian Wood <brian@permitswest.com>
Sent: Monday, March 30, 2015 6:33 PM
To: McMillan, Michael, EMNRD
Subject: Re: Apache Jackrabbit State Well No. 4
Attachments: application pack.pdf

This Section 32 is another oddball section.
While not "lotted", it is 66' or more shorter on all 4 sides.
Surveyor calculates it 296' from west side of UL B.
See 7th page of package.

On Mar 30, 2015, at 3:19 PM, McMillan, Michael, EMNRD wrote:

Brian:
the Apache Corp Jackrabbit State Well No. 4 is part of the Artesia; Glorieta-Yeso pool. It has statewide rules with 330
foo offsets.
Therefore an NSL is not required.

Thank You

Michael A. McMillan
