**REQUEST FOR ADMINISTRATIVE APPROVAL  
NONSTANDARD LOCATION (NSL)  
PRIMERO OPERATING, INC.  
EXUMA FLATS 1Y  
30-025-42860  
SHL: 1980' FSL & 2140' FWL  
BHL: 1746 FSL & 1436 FWL  
SECTION 7, T. 16 S., R. 38 E., LEA COUNTY, NM**

I. The Exuma Flats 1 was drilled in 2014 as a 12,929' deep vertical wildcat Strawn oil well. It was dry. After reviewing 3D seismic data, it was decided to directionally drill 741.2' southwest. TVD will be 12,099'. MD will be 12,238'. This proposed directional oil well is on private surface and a 157.27 acre private oil and gas lease. The well is nonstandard (84' too far west) for the WC-025 G-08 S163807K; Strawn Pool (98095) due to geology (see EXHIBIT A).

Primero requests approval for a nonstandard location due to geology. A standard location was dry. Re-interpreted seismic data indicates that the target is in a nonstandard location.

A standard location must be  $\geq 330'$  from the boundary of the quarter-quarter. In this case, it is 246' from the west side of unit letter K. Section 7 (see below) is narrower ( $\approx 5150'$ ) than normal (5280') in an east-west direction.

II. Form C-102 showing the well and 40-acre dedication is attached as Exhibit B. The well is 140' too far east.

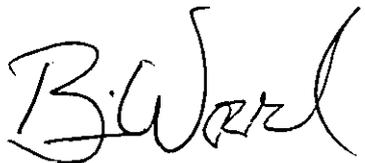

III. Lease boundaries are shown on EXHIBIT C. The well encroaches to the west, southwest, and south. This is toward the interior of the lease. There are no Strawn dedications bordering or cornering the NESW Section 7. Closest Strawn dedication is >2 miles southeast (see Exhibit D). This information is current and correct.

IV. Archaeology is not an issue.

V. Preventing waste and recovering additional reserves drives the need for this nonstandard location.

VI. I hereby attest that I, on or before the date that the application was submitted to the division, sent notification to the affected persons (see EXHIBIT E) by certified mail, return receipt requested, advising them that if they have an objection it must be filed in writing within 20 days from the date the division receives the application. These affected persons have working or royalty interests in quarter-quarters that border the 40-acre spacing unit. Said notice was sent to:
