Reference: OXY USA * AMAX 24 Federal 8 * 30-015-27162 * L-24-23s-31e * Eddy County, New Mexico
NMOCD Reference Number: 2RP-1080 * Date of release: 1/24/12

Cliff,

Your proposal for remediation of the above referenced release is approved. The site is situated on federal surface and may require like approval from BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Subject: Oxy-Amax 24 #8 Central Tank Battery-Remediation Plan

Mike,

This e-mail is to confirm our discussion on January 14, 2013 concerning the remediation plan for the release that occurred at the Oxy Amax 24 #8 Central Tank Battery. I have attached the site drawing and the summary of the laboratory data we reviewed during our discussion for your files. As agreed, Oxy will excavate 2 feet in the areas covered by SP1, SP2, and SP3 and will excavate to 1 foot in depth in the areas covered by SP4 and SP5. In the area of SP6, Oxy will excavate to 3 feet and then will take confirmation sidewall samples and analyze the samples for TPH, BTEX, and Chloride. In the areas of SP7, SP8, and SP9, Oxy will excavate 6 inches in depth. The site will then be backfilled with clean soil. The depth to groundwater in this area is approximately 200 feet.

If you would please reply back via e-mail with your concurrence of this remediation plan, it would be greatly appreciated.

Oxy and I thank you for your assistance in handling this matter.

Thanks, Cliff
