13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

6/25/12 - Injection leak was at well site on 2" steel line that feeds well. No water was picked up; estimated we lost about 4 to 5 bbls. water. The site where the leak occurred was about 30' x 50', just East and South of the well. There was a small amount of mist that settled Northeast of the site. Going to get Talon to cleanup the spill and check for chlorides. The table water was never compromised.
