Chris,

I am good with doing a surface scrape as BLM has requested.

If one of you could send me the labs on the Winston 6, us fed 13 and the Comanche. I apologize I know that I have the history of these wells sites but I am going to go to BLM in the morn and want to have this handy as I go to get closure on these sites.

RE: COMMANCHE 3-1

Enclosed are the results of analyses for samples received by the laboratory on 07/11/13 11:40.

Cardinal Laboratories is accredited through Texas NELAP under certificate number T104704398-11-3. Accreditation applies to drinking water, non-potable water and solid and chemical materials. All accredited analytes are denoted by an asterisk (*). For a complete list of accredited analytes and matrices visit the TCEQ website at www.tceq.texas.gov/field/qa/lab_accred_certif.html.

Cardinal Laboratories is accredited through the State of Colorado Department of Public Health and Environment for:

Method EPA 552.2	Haloacetic Acids (HAA-5)
Method EPA 524.2	Total Trihalomethanes (TTHM)
Method EPA 524.4	Regulated VOCs (V1, V2, V3)

Accreditation applies to public drinking water matrices.

This report meets NELAP requirements and is made up of a cover page, analytical results, and a copy of the original chain-of-custody. If you have any questions concerning this report, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Celey D. Keene".

Celey D. Keene

Mike, I will send you the labs on this. If it is good with you we will do a surface scrap on this location to get the cleanup done on it as requested by the BLM.

Chris,

Jim looked over the analysis and concluded that the chlorides and TPH are too high to leave at surface. Need to go ahead and scrape the area that is more than 1000 ppm. Thanks.

Subject: FW: Paper work

To: jamos@blm.gov

Jim, here are the labs for the Comanche spill, though they are not great they aren't too bad either. I am proposing that we have closure and monitor this site as it is off the location in an area that has good vegetation and appears to be unaffected by the leak.

Here is the Comanche 3-1.

Have a great day!

If one of you could send me the labs on the Winston 6, us fed 13 and the Comanche. I apologize I know that I have the history of these wells sites but I am going to go to BLM in the morn and want to have this handy as I go

to get closure on these sites.
