Re: Application of EOG Resources Inc. for administrative approval of a 200-acre non-standard project area in the Red Hills; Upper Bone Spring Shale Pool (97900) and approval of an unorthodox location, Sections 12 and 13, Township 25 South, Range 33 East, NMPM, Lea County, New Mexico. Lucky 13 Fed Com No. 1H Well

Dear Mr. Catanach:

EOG Resources, Inc. ("EOG") (OGRID 7377) seeks administrative approval of a non-standard project area and an unorthodox location for its **Lucky 13 Fed Com No. 1H Well** (API number pending) to be completed in the Red Hills; Upper Bone Spring Shale Pool (Pool Code 97900) underlying portions of Sections 12 and 13, Township 25 South, Range 33 East, NMPM, Lea County, New Mexico. This well will be drilled from a surface location 2099 feet from the South line, 690 feet from the West line (Unit L) of Section 13. The upper most perforation will be located 2591 feet from the North line, 504 feet from the West line (Unit E) of Section 13 and the lower most perforation will be 1650 feet from the North line, 503 feet from the West line (Unit E) of Section 12. Since this acreage is governed by the Division's statewide rules which provide for wells to be located no closer than 330 feet to the outer boundary of the spacing unit, the completed interval for this well will be unorthodox because it is closer than 330 feet to the southern boundary of the project area. Accordingly, the well encroaches on the spacing unit to the South of the 200-acre project area.

In addition, EOG seeks approval of a 200 acre non-standard project area comprised of the W/2 NW/4 of Section 13 (Units D and E) and the W/2 SW/4 and SW/4 NW/4 of Section 12 (Units E, L, M). Since this proposed project area excludes the NW/4 NW/4 (Unit D) of Section 12, it is a non-standard project area pursuant to NMAC 19.15.16.7(M). EOG plans to develop the NW/4 NW/4 of Section 12 with a 1.25 mile length horizontal well that will extend into the W/2 W/2 of Section 1 to the North. Approval of the unorthodox completed interval and the non-standard project area will allow efficient length and spacing of horizontal wells, thereby preventing waste.

As support for this application, EOG provides the following additional information and exhibits:

Exhibit A is the Well Location and Acreage Dedication Plat (Form C-102), which shows the proposed non-standard project area and the non-standard location of the Lucky 13 Fed Com No. 1H Well.

Exhibit B is a land plat for Sections 12 and 13 and the surrounding sections that shows the Lucky 13 Fed Com No. 1H Well in relation to the adjoining units and existing wells.

Exhibit C is a list of the parties affected by EOG's request for a non-standard project area and an unorthodox location. Each of these parties has been provided a copy of this application and all attachments by certified mail, and has been advised that if they have an objection it must be filed in writing with the division within 20 days from the date the division receives this application. In addition, a courtesy copy of this application has been provided to the Bureau of Land Management-Carlsbad.

Your attention to this application is appreciated

Sincerely,

Jordan L. Kessler
