Describe Cause of Problem and Remedial Action Taken.\*

June 01, 2015 on the Burton Flat Deep Unit 52/56 at 1:30 pm A Devon lease operator found a pin hole leak on the water transfer line. A 5" clamp was placed over the pin hole to stop the leak.

Describe Area Affected and Cleanup Action Taken.\*

Tex-Mex vacuum truck was called out to empty line for repairs and clean up. A 2 BBL spill of produced water and 0 recovered on side of lease road on pasture. Environmental company will be called to evaluate area.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
