Describe Area Affected and Cleanup Action Taken.* Unlined Containment 15x80 all inside containment. Environmental service will be called on.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Attachments: C-141 Todd 24 B 2 Spill.doc

Good afternoon,

I have attached the C-141 associated with the spill on the above location. Upon reviewing the NMOCD website I have noticed that there are two other open C-141's for this site 2RP-1391 and 2RP-1686 respectively. Please advise me on how you would prefer that I proceed. If necessary, we can remediate for all spills at one time. Also, please advise me on the RP number for this spill.

Have a great evening,

Thank You

Rebecca Pons
