NATURE OF RELEASE

Type of Release <i>Hydrostatic test Water</i>	Volume of Release: <i>300 BBL water in use for hydrostatic test</i>	Volume Recovered: <i>N/A</i>
Source of Release <i>Pipeline Leak</i>	Date and Hour of Occurrence <i>07/28/2015 @ 10:00 MDT</i>	Date and Hour of Discovery <i>07/28/2015 @ 10:00 MDT</i>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <i>Mike Bratcher - NMOCD District 2</i>	
By Whom? <i>Osman De Leon</i>	Date and Hour <i>07/28/2015 @ 17:00 MDT</i>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
During hydrostatic testing of the new pipeline to be installed at the 30137 lateral, the new line failed the test and approximately 200 to 300 bbls of hydrostatic test water spilled to the ground within pipeline Right of Way. The tested pipeline is new, fresh water was used and no hydrocarbon contamination is expected. Samples of the source water were collected. Enterprise is currently investigating this event and will update NMOCD with additional information.

Describe Area Affected and Cleanup Action Taken.*
Liquid spill occurred within pipeline ROW. Any necessary clean-up activities will be carried out in accordance with Enterprise's General release Notification, Response and Remediation Plan (dated March 9, 2015).

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
