ARTESIA DISTRICT  
AUG 11 2015

**RECEIVED**

**Describe Cause of Problem and Remedial Action Taken.\***  
On August 6, 2015 5:04 at the Cotton Draw Unit 89 Truck Driver for Black River Trucking was loading produced water when the connecting high pressure 4" hose blew apart releasing 35bbls onto location. The well was immediately shut in and the next truck in line was Standard Trucking so they started recovering the released produced water immediately.

**Describe Area Affected and Cleanup Action Taken.\***  
The affected area was approximately 80' x 120' x 50' all contained on location with 25bbls produced water recovered. The broken hose will be repaired. And environmental company will be contacted to determine the extent of clean up.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
