**RECEIVED**

If a Watercourse was Impacted, Describe Fully.\*  
N/A

Describe Cause of Problem and Remedial Action Taken.\*  
Buried flowline developed small leak. Pumper discovered release, when he arrived at the location. All fluid released was contained on the location. Vacuumed up all fluid possible and disposed of at R360 disposal facility. Flowline will be repaired. Will One Call and then dig out contaminated soil, dispose of at R360, and replace with clean soil from a nearby source.

Describe Area Affected and Cleanup Action Taken.\*  
See above explanation

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
