marbob
energy corporation

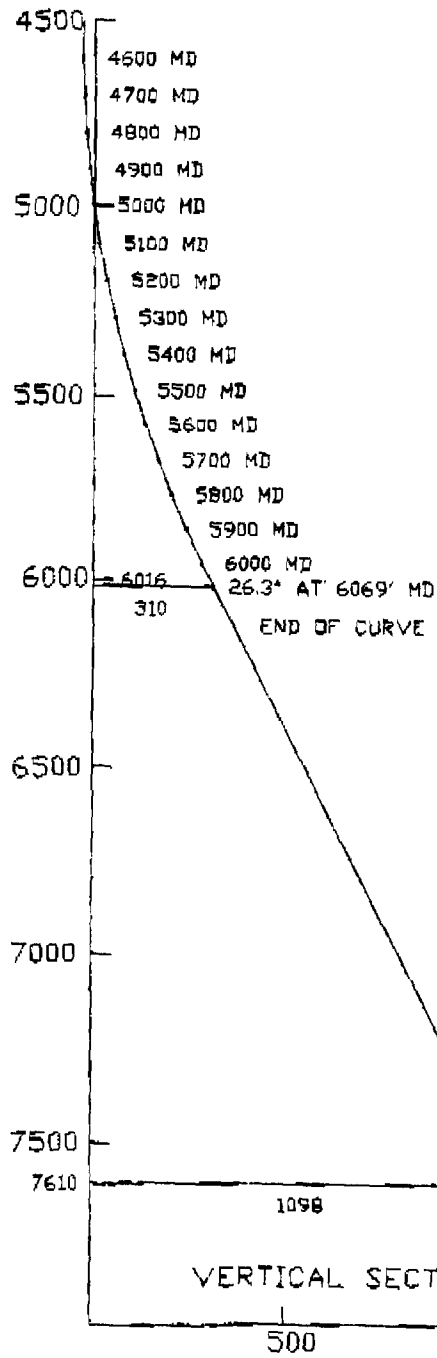

TO: Mr. Michael Stogner
FROM: Martin Joyce
SUBJECT: Primero White 14 Fed. 1 Kickoff
DATE: 7/13/1999
PAGES: 3 (with this cover)

Mr. Stogner: Included is a net sand isopach of the pay interval on the Primero Fed 1 in section 23. We feel the subject well was a near miss of reservoir quality sand in that same interval. Allowing us the kickoff should save us several hundred thousand dollars and allow us to recover gas that standard well spacing would not. We appreciate your help. If there is anything else we can do please do not hesitate to ask.

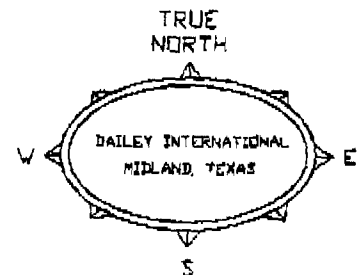

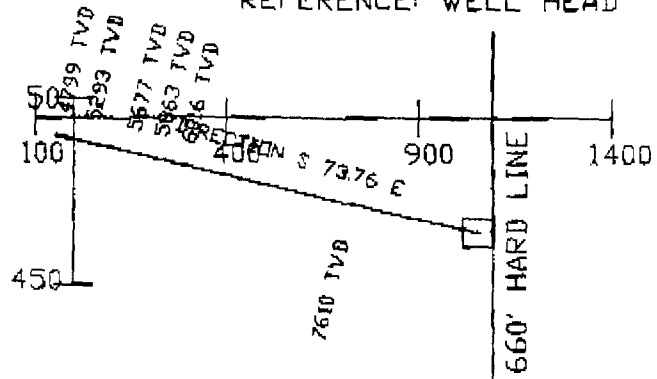

Regards
Martin Joyce, geologist
