Gentlemen:

Devon Energy Production Company, L.P. (Devon), as Operator, intends to drill the referenced Morrow test well to a depth of approximately 11,300'. Devon initially attempted to stake and permit this well at an orthodox location of 990' FSL & 940' FEL. However, due to the proximity of the location to an existing playa, the Bureau of Land Management (BLM) has required Devon to move the location. The closest drillable location as approved by the BLM is located 540' FSL & 990' FEL which is an unorthodox location as it is closer than 660' to the outer boundary of the designated spacing unit pursuant to existing pool rules.

Inasmuch as this well will be producing from an unorthodox location from that permitted by existing pool rules, Devon respectfully requests that the Commission administratively approve this application for an unorthodox location in accordance with Division Rule 104(F)(3). This unorthodox location affects the leasehold owner in the spacing unit to the South in Section 7. Devon's records reflect that Mewbourne Oil Company (Mewbourne) is the only affected owner in the N/2 and the only party required to receive notice of this application. In that regard, you will find attached, a copy of Mewbourne's waiver of objection to this application.

Attached you will find a land plat reflecting Mewbourne as the only affected party, a Lower Morrow structure map, and a State of New Mexico form C-102.

If there are any questions or if additional information is required feel free to call me at (405) 552-4633.

Yours very truly,

DEVON ENERGY PRODUCTION COMPANY, L.P.
