Subject: Proposed Amendment to PLC-260  
Fullerton Federal CDP #2  
Federal Leases NMSF078094

Dear Mr. Jones & Mr. Lovato:

XTO Energy Inc. requests administrative approval to amend Surface Commingle Order PLC-260. XTO proposes to add the Fullerton Federal #6B (30-045-31586) and the Fullerton Federal #7B (30-045-31609) to the Fullerton Federal CDP #2 (PLC-260). These two wells are located in T27N, R11W in San Juan County, New Mexico. Both wells are located on lease NMSF078094. Both wells have DHC orders attached to them: Fullerton Federal #6B (DHC-2001AZ) and Fullerton Federal #7B (DHC-2002AZ)

Each well will be equipped with an allocation meter and maintained by XTO Energy in accordance with State and Federal Regulations (Onshore Order No. 5). Produced liquids will not be surface commingled. All interest owners were notified via certified mail, return receipt, on December 8, 2005.

The following attachments are included with this letter:

- List of wells in Fullerton Federal CDP #2
- Form C107B (application for surface commingle; diverse ownership)
- Form C-102 for the Fullerton Federal #6B and Fullerton Federal #7B
- Letter to WI, ORRI, and NRI Owners (w/list of Owners)

Sincerely,

Holly C. Perkins

This permit shall be amended if additional pool(s) are to be added within these areas as described above or these areas as described above are to be extended.

It is our understanding that ownership is not identical. Gas production shall be allocated by separately and continuously metering the gas production from each well or group of wells with identical ownership within this gathering system. Liquid production shall not be commingled.

RE: Notice to Working and Royalty Interest Owners  
Application to Surface Commingle Gas Production  
Fullerton Federal #6B and Fullerton Federal #7B  
Section 11, T27N, R11W  
San Juan County, NM

XTO Energy Inc. is applying to the New Mexico Oil Conservation Division (NMOCD) and Bureau of Land Management for approval to add the two above-mentioned wells to the existing Fullerton Federal CDP #2 gathering system. The Fullerton Federal #6B and Fullerton Federal #7B will add the Basin Dakota and Basin Mancos pools from each well into the commingle. The NMOCD requires all interest owners be notified of plans to surface commingle when ownership is different between wells.

We plan to produce the commingled gas through a shared compressor. Produced liquids will not be surface commingled. A copy of our application to surface commingle is attached for your reference. If you need additional information or have any questions, I may be contacted at (505) 324-1090.

In the future, additional wells, pools and acreage may be added to this surface commingle or this gathering system. At such time, as an owner in this system, you will not be noticed as this commingle is expanded unless this method of allocation production between pools and wells changes.

If you have an objection to our application, you must file a protest in writing to the NMOCD Santa Fe office at 1220 So. St. Francis Drive, Santa Fe, NM 87505 within 20 days from the date the NMOCD received the application. The application was mailed to the NMOCD on the date of this letter.

Sincerely,

A handwritten signature in cursive script that reads 'Holly C. Perkins'.

Yes, I was referring to the Fullerton wells. You can proceed but keep this in mind. If we were to get an objection from an interest owner, you would have to quit commingling and we would set the application to hearing. The chances of that happening are very remote, so I think you guys would be ok to proceed.

the inquiry was about the Fullerton wells, and the subject line says Ohio Govt. Hopefully the subject line is the one that is wrong. Are you saying we can proceed with the Fullerton surf cmgls?

Hi Holly,

I'm supposed to hold the application for 20 days starting the date I receive it. I received this on January 9th, therefore, the release date will be January 30th. I've looked at the application, and it appears that everything is in order. If you guys need to start commingling these wells, I think it would be ok. Otherwise, you should see an approval on January 30th.

I was wondering if you'd had a chance to check on the Fullerton #6B and #7B that we wanted to add to an existing surface commingle (PLC-172A)?  
I've attached our original request for your review.
