Hi Celeste,

I looked at your letter and it looks like we may need something more. The new surface commingling rule was recently enacted, and it can be found on our website at emnrd.state.nm.us. The number is Rule 19.15.5.303. Under part (D) it gives the procedure and requirements for off lease storage and measurement. Take a look at it and submit the required data to me. If you have any questions, call me at (505) 476-3466.
