RE: Administrative Approval to Downhole Commingle
Taurus Exploration U.S.A., Inc.

Dear Mr. LeMay:

Taurus Exploration U.S.A., Inc. requests administrative approval for downhole commingling the Blanco Mesa Verde and W. Lindrith Gallup-Dakota pools in the subject well. The well is currently producing as a Mesa Verde/Gallup Dakota dual completion. The Dakota zone has experienced liquid loading problems and it is felt downhole commingling will eliminate excessive swabbing expenditures and provide a mechanical configuration to plunger lift the well.

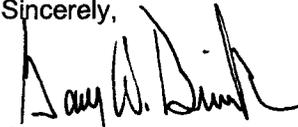

To comply with New Mexico Oil Conservation Rules, Taurus Exploration U.S.A., Inc. is submitting the following data for your approval of the proposed commingling:

1. For C107A - Application for Downhole Commingling
2. C-102 - Location plat showing each spacing unit and dedicated acreage
3. Production curves for both the Mesa Verde/Gallup Dakota
4. Offset operator plat
5. Well location plat.

In accordance to New Mexico Oil Conservation Division Rule 303C, all offset operators are being notified of this application by certified mail. As an offset operator, if you have no objection to this application, you do not have to respond to this notification.

If additional information is needed, please contact me.

Sincerely,

Gary W. Brink
Production Superintendent
