Attention: Ms. Peggy Cole

*State "16" Well No. 1
API No. 30-045-25639
Unit E, Section 16, Township 28 North, Range 9 West, NMPM,
San Juan County, New Mexico
Otero-Chacra (Gas – 82329), and
Potter-Gallup (Oil – 50387) Pools*

Dear Ms. Cole:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of oil and gas that may be produced daily from the well shall be determined by Division Rules and Regulations.

The applicant shall consult with the supervisor of the Aztec District Office of the Division upon completion and testing of the well in order to determine a fixed allocation of production from each of the commingled zones. Upon approval by the Division's Aztec District Office, the applicant shall submit the allocation formula to the Santa Fe Office of the Division.
