Type of Release <b>Spill</b>	Volume of Release <b>7 BBLs</b>	Volume Recovered <b>6.5 BBLs</b>
Source of Release <b>Tank</b>	Date and Hour of Occurrence <b>2/21/06 Early AM</b>	Date and Hour of Discovery <b>2/21/06 9:00 AM</b>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>Pat Capeton</b>	
By Whom? <b>Larry Williams</b>	Date and Hour <b>2/21/06 2:00 PM</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Valve leaked oil into a tank that was being replaced and not intended to be in service yet. Oil filled tank to 1 foot level and then leaked out a valve that had not been properly installed. First valve that leaked was open and closed again. Valve that was not properly installed was corrected. Source was then contained.

Describe Area Affected and Cleanup Action Taken.\*

Oil was contained in a ditch that had been dug along the back side of the tanks in order to replace lines. Oil was picked up out of ditch.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
