Salt water pump went down on low oil level and tank ran over. Call out alarm was not hooked up on new pump. But it is now. Picked up fluid and dug up dirt and temporarily put on plastic in battery.

Describe Area Affected and Cleanup Action Taken.*
Approximate 1000 to 1200 square feet.
Material will be moved to designated land, farm at Eunice, New Mexico. No salt water was present (oil only)

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
