1,415' FNL and 240' FEL, Section 21, T30N, R12W  
San Juan County, New Mexico  
Dakota Formation

Dear Mr. Stogner:

XTO Energy Inc. hereby requests administrative approval for an unorthodox location for the above referenced well. Attached for your reference are the following exhibits:

1. Well location plat (NMOCD Form C-102)
2. Topographic map
3. Aerial photograph
4. Ownership map
5. Production map showing Dakota Formation Gas Production

The proposed location has been chosen due to proximity of Farmington Lake and the low-lying topography to the west of the proposed non-standard-location. Both are indicated on the attached exhibits. It should be noted XTO has a pending agreement with the surface owner. Drilling the above referenced well at the requested location will best preserve the surrounding surface while effectively and efficiently producing gas from the Dakota Formation.

All of the offset operators have been notified of this application by certified mail and copies of the letters and receipts are attached.
