Describe Area Affected and Cleanup Action Taken.*
Surface area location. Picked up by vacuum truck.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: RE: Release Notification

There were 80 barrels of oil and the rest was water. Do I need to redo the report and resend it with the breakdown?

Subject: RE: Release Notification

Thank you,

I just wanted to let you know that I will be marking this as an "initial" C-141. Also, do you have a breakdown of the volumes released? How many of the 110bbls were oil, and how many were produced water?

Subject: Release Notification

Good Morning,

Attached is form C-141 Release Notification. Please let me know what further action we need to take .I am filling in for our regulatory person who is on jury duty this week, so please advise me if I need to do anything further.

Thank you,

Maren Latimer
