If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Lightning struck a tank, blowing out the bottom and causing 30 bbls of produced water to leak into the lined battery containment. No fluids were recovered and the tank was repaired/removed.

Describe Area Affected and Cleanup Action Taken.\*

The affected area is approximately 25' x 50' on location inside the lined battery. Remediation will be completed by removing the impacted soil from the lined battery and replacing it with clean soil.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
