Describe Area Affected and Cleanup Action Taken.\*  
*impact was on the location pad. Samples will be collected and a work plan will be developed.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

We had a release at the above location 11/17/2015.

Stainless steel tubing going to the pulsation dampener broke from the vibration of the triplex pump.

20 bbls of produced water was released onto the location pad, and 10 bbls were recovered.

A C-141 will follow shortly.

**Christine Alderman**
