RE: Anadarko E&P Onshore LLC \* Stateline Compressor Station LP Gathering Line \* 11/13/15 release/C-141

Cort,

OCD is in receipt of the C-141 spill report as referenced above. The report indicates proposing in-situ remediation. OCD does request initial delineation samples be obtained to determine vertical and horizontal extent of impact as well as levels of contamination. This data, along with a site ranking per OCD Guidelines, may then be used to propose an in-situ remediation. Remediation on Federal surface will require BLM approval as well.

If you have any questions or concerns, please contact me.
