Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* The heater treater malfunctioned causing a release of 20 barrels of produced water and 30 barrels of oil. The heater treater was taken out of service and repaired. A vac truck was called to location and recovered 24 barrels of fluid. Talon mobilized personnel to the location for emergency spill response to contain the release due to adverse weather conditions. Recovery of fluids is ongoing and the volume may increase as the weather improves and snow melts.

Describe Area Affected and Cleanup Action Taken.* The release ran across location, road and pooled in the pasture. The site assessment is in progress.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
