If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

A frozen discharge line leaked 30 bbls of produced water onto the ground. A vacuum truck recovered 10 bbls of produced water and the line was repaired or replaced.

Describe Area Affected and Cleanup Action Taken.\*

The affected area is approximately 30' x 100' on location. Remediation will be completed in accordance with the remediation plan approved by NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** Oxy Two Marks Tank Battery

Mike,

This is to inform the NMOCD that Oxy had a produced water release of 30 bbls today, Jan. 9, 2016 at 8:30 a.m. at the Two Marks Battery. All fluids stayed on location. Vacuum trucks were recovering fluids. Full information will be included in the initial C-141 when it is sent to the NMOCD.

Thanks, Cliff Brunson
