August 25, 2015

Per the rules and regulations of the New Mexico Oil Conservation Division, please find enclosed a copy of NMOCD form C108.

Apex Disposal Services, LLC, PO Box 2737, Littleton, CO 80161 has filed form C108 (Application for Authorization to Inject) with the New Mexico Oil Conservation Division seeking administrative approval for the drilling and conversion to commercial salt water disposal at the Mobley Ranch SWD #1, API #30-015-43267, 225 FNL x 2460 FWL, Unit Letter "C", Section 19, T23S, R30E, Eddy County, New Mexico. The proposed disposal interval would be the Devonian formation through open hole completion from 15,100' to 15,600'. Disposal fluid will be produced water from producing oil and gas wells in the area. Anticipated average disposal volume is 5,000 BWPD with a maximum anticipated volume of 15,000 BWPD. Anticipated disposal pressure is 0 (zero) psi with a maximum disposal pressure of 3020 psi. The well is located approximately 10 miles east of Loving, New Mexico.

All interested parties opposing the aforementioned must file objections with the New Mexico Oil Conservation Division, 1220 South St. Francis Drive, Santa Fe, New Mexico 87505 within 15 days. Additional information can be obtained by contacting Matthew Meyer 903-241-4544.

Sincerely,

Danny J. Holcomb

APPLICATION FOR AUTHORIZATION TO INJECT

I. PURPOSE: _____ Secondary Recovery _____ Pressure Maintenance Disposal _____ Storage
Application qualifies for administrative approval? Yes _____ No

II. OPERATOR: Apex Disposal Services, LLC

ADDRESS: PO Box 2737, Littleton, CO 80161

CONTACT PARTY: Matthew Meyer

PHONE: 903-241-4544

III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection.
Additional sheets may be attached if necessary.

IV. Is this an expansion of an existing project? _____ Yes No
If yes, give the Division order number authorizing the project: _____

V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.

VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.

VII. Attach data on the proposed operation, including:

1. Proposed average and maximum daily rate and volume of fluids to be injected;
2. Whether the system is open or closed;
3. Proposed average and maximum injection pressure;
4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,
5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).

*VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval.

IX. Describe the proposed stimulation program, if any.

*X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be resubmitted).

*XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.

XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water.

XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.

XIV. Certification: I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.

III.

Please see Exhibit "A" for proposed well data.

IV.

This is not an expansion of an existing project.

V.

Please see Exhibit "B" of lease map.

VI.

There are no wells identified within the 0.5 mile AoR that penetrate the proposed disposal zone.
Please see Exhibit "C" for offset well data.

VII.

1. Anticipated disposal volume – 5,000 BWPD with a maximum of 15,000 BWPD.
2. System will be open.
3. Anticipated disposal pressure: Minimum 0 (zero) psig, Maximum 3,020 psig.
4. Please see Exhibit "D" for disposed fluid analysis.
5. Please see Exhibit "D" for disposal zone fluid analysis.

IX.

After open hole is drilled from 15,100' – 15,600', plan to perform pump-in test. No stimulation work initially planned (pending pump in test results).

X.

Logs will be submitted after completion.

XI.

NM OSE records indicate there is one fresh water well within the 1 mile Area of Review. The latest GO-Tech recorded sample is from 1976 and the results are included in Exhibit "E". An additional sample from this fresh water well was obtained 8/6/15. The new test results for this sample are also included in Exhibit "E". This water well is located approximately 1668' from the proposed Mobley Ranch SWD #1.

XII.

Available geological and engineering data have been examined and no evidence of open faults or hydrological connection between the disposal zone and any underground sources of drinking water has been found.

Subject: Application Status and the Two Protests to Inject - Mobley Ranch SWD No. 1

Matt:

I have reviewed the notification matter with legal counsel from the Secretary's Office of General Counsel, including the OCD counselor, Mr. David Brooks. Legal has agreed that though Apex notified a party that may have not been required as part of the original application, the protest by Ms. Tomlinson was timely, has standing, and remains part of the protest record. This would entail the resolution either by either negotiation or hearing.

With regards to the second item, thank you for providing the notice of Mosaic and this request is satisfied.

And in response to Mr. Holcomb's concern, the database does not permit a "suspended" option. Due to the folks that developed the RBDMS, either an application is progressing through the review process or is cancelled since it cannot be administratively approved. These are the only reporting options available which are monitored by management. The application is still on file. PRG

Subject: RE: Notice of Two Protests to Inject - Mobley Ranch SWD No. 1

Good Afternoon Phillip,

Per your request I have been reviewing the OCD rules, our original submission and our work to date in order to provide you with a plan for Apex Disposal's injection application. During my review I rounded up a few questions that I was hoping to clarify so we can continue to progress forward and gain closure on this nearly five month project.

To start, I understand your concerns relating to 19.15.26.8(C) and 19.15.26.8(D). This section clearly states if an objection is made by the land owner, leasehold operator or affected person that a hearing would be required. That said, I have a question regarding Ms. Tumlinson being an "affected person" as described in the definitions section 19.15.26.7 (A). In this section "affected person" is specifically described as mineral owner in the absence of an operator or lessee. In the case of Ms. Tumlinson, her mineral interests are presently leased and operated thereby disqualifying her from being an "affected person" and revoking her authority to hold up the permitting process with her objection. Further, my understanding of statute 19.15.26.7 (A) is that because Ms. Tumlinson's rights are represented by the operator of record of the lease she is presently subordinated to the operators objection and not defined as an "affected person." Also, to clarify the likely source of confusion with Ms. Tumlinson occurred when we sent notification per statute 19.15.26.8 (B) (2) and we mistakenly sent legal notice to ALL mineral interest owners within a .5 mile of the proposed well location, not just those required in statute 19.15.26.89 (B) (2). Long story short, we were not required by law to notify Ms. Tumlinson, she does not classify as an "affected person" and therefore it would stand to reason that her objection carries no authority according to the statute, however please advise if my logic is incorrect.

Similarly, the only objection that we received from an "affected person" based on the definition in 19.15.26.7 (A) was from XTO and we have since worked with XTO to resolve this objection.

Based on this information is it still your belief and the OCD's belief that we must proceed with a hearing which will tie up additional time? If so, please advise and we will schedule the hearing as soon as possible if deemed necessary.

Finally, relating to your comment regarding Division Order R-111-P and the Interior Secretary 2012 Designated Oil-Potash Area. We have pursued this issue and have properly notified Mosaic Potash Carlsbad Inc. by registered mail signed and received on 9/8/2015 (you were included on an email chain 9/3/15 with Mr. Jones referencing this notification, see attached). Additionally, for reference I have attached a copy of the US Postal Service signature card showing receipt. No corresponding objection followed this notification. Please advise any additional action you may be referring to.

Thank you for your time Phillip and please let me know what we can do to come to a quick and expedient resolution to this matter. I am available to discuss anytime on my cell phone at (903) 241-4544.

Matt:

The options under OCD Rules are specific. Ms. Tumlinson's protest is valid since she was identified as an "affected person" and no evidence of resolution has been offered to OCD. Under Rules 19.15.26.8(C) and 19.15.26.8(D), the application cannot be administratively approved and must be sent to hearing. Additionally, the issue of addressing the

well location with Hearing Order R-111-P remains open. Please contact me with any questions and please provide OCD with Apex Disposal Services plans for this application. Thank you. PRG

Subject: RE: Notice of Two Protests to Inject - Mobley Ranch SWD No. 1

Good Morning Phillip,

We have not been able to come to a resolution with Ms. Tumlinson. Unfortunately during our discussions with Ms. Tumlinson the conversation ultimately circles back to "what is in it for me?" We have explained that because we are not extracting any resources and protecting her mineral interests from our project by placing them behind multiple layers of pipe and cement she is not entitled to a royalty fee or some sort of compensation. Further, we have reiterated that Devonian formation that we are intending to inject into is below various impermeable formations so injected fluids will not communicate or affect her mineral interests. Finally, we have even tried mentioning that a project like this could even make the area more desirable for operators to drill and explore (which is potentially beneficial to her mineral interests) since water disposal in the area is currently insufficient and costly to operators as they have to truck water to disposal wells rather than piping it to disposal wells.

Long story short, unlike XTO (who we were able to come to terms with and address their concerns) Ms. Tumlinson appears to be objecting as a means of getting a payout rather than having a reasonable and ligament argument for her objection.

Please let me know if you have any additional questions and thank you for your time,

Best Regards,

Matthew Meyer

Good Morning Phillip,

I want to check in quickly on the status of a C108 application we have submitted for a Devonian formation disposal well in Eddy Co. As seen in the note below we received two objections to the project but have since worked with XTO and they have removed their objection (you received email correspondence from our attorney Jim Bruce regarding the removal of the objection on 12/9/2015 - Case 15408: Apex SWD case). It is my understanding the C108 application should be back in the administrative approval process and I wanted to verify that you had all the information required. Please advise if there is anything additional you need from our end.

Thank you in advance and I hope your New Year is off to a good start!

RE: Mobley Ranch SWD No. 1 (API 30-015-43267) – Sec 19, T. 23 S., R. 30 E., NMPM, Eddy County.

Mr. Holcomb:

OCD was notified through counsel that XTO Energy is protesting this application for approval of a salt water disposal well. A second party, Mrs. Janice Tumlinson, has also submitted a written protest of the proposed injection application. Therefore, you are being notified that if Apex Disposal Services, LLC wishes for this application to be considered, it must either go to hearing or may be reviewed administratively if the protests are withdrawn as a result of a negotiated resolution with these parties. The application will be retained by OCD, but suspended from further administrative review. Please contact OCD once you have made a decision regarding the application within the next 30 days. If the protest remains after 30 days, OCD will initiate the process for the application to be reviewed at hearing.

Additionally, based on a cursory review of the application, Apex's proposed well location is within the boundaries of Division Order R-111-P and the Interior Secretary 2012 Designated Oil-Potash Area (the establishment of drilling islands). The application does not address this designation. Please pursue these stipulated potash orders and determine if additional notification of adjacent potash lease holder (for LMR)or mineral interest owner (BLM) will be necessary.

Please call me with any questions regarding this matter. PRG

Mike: Attached is a limited subpoena directed to XTO. Please let me know if you accept service.

If XTO is not going to object to the application, the subpoena can obviously be ignored. Let me know. Also, I would then refer the application back to the administrative docket.
