I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** Release at the Gissler A 2 Tank Battery \ API #30-015-33498

Shelly/Heather,

To follow up on my earlier phone call, we had a release at the Gissler A 2 Tank Battery today when an injection line ruptured. Approximately 200 barrels of produced water was released onto the pad and nearby pasture.

Area affected:

Pad: 100'x75'  
Pasture: 300'-400' x 1'-5'

I will follow up next week with a C-141.

Thank you and have a nice weekend.
