Re: Application of Matador Production Company for administrative approval for off-lease measurement and approval to surface commingle (pool-lease commingle) gas production from the spacing units comprised of the S/2 of Section 14, the S/2 of Section 13, the S/2 S/2 of Section 14, and the S/2 S/2 of Section 13, Township 24 South, Range 28 East, NMPM, Eddy County, New Mexico.

Dear Mr. Catanach:

Matador Production Company (OGRID No. 228937) seeks administrative approval for off-lease measurement and approval to surface lease commingle gas production only from the Pierce Crossing; Bone Spring Pool (50371), the Culebra; WC; South (Gas) Pool (75750), and the Pierce Crossing; Wolfcamp NW (Gas) Pool (96712) *from all existing and future wells and existing and future leases* drilled in the following areas of diverse ownership in Township 24 South, Range 28 East, NMPM, in Eddy County, New Mexico:

(a) The 320-acre standard spacing unit comprised of the S/2 of Section 14. This spacing unit is currently dedicated to the Tiger 14-24S-28E RB No. 204H Well (API No. 30-015-43087) and the Tiger 14-24S-28E RB No. 224H Well (API No. 30-015-42873). Both existing wells are producing from the Culebra; WC; South (Gas) Pool (75750).

(b) The 320-acre standard spacing unit comprised of the S/2 of Section 13. This spacing unit is currently dedicated to the Janie Conner 13-24S-28E RB No. 224H Well (API No. 30-015-43037), and produces from the Pierce Crossing; Wolfcamp NW (Gas) Pool (96712).

(c) The 160-acre spacing unit comprised of the S/2 S/2 of Section 14. This spacing unit is currently dedicated to the Tiger 14-24S-28E RB No. 124H Well (API No. 30-015-43012), and produces from the Pierce Crossing; Bone Spring Pool (50371).

HOLLAND & HART^{LLP}

(d) The 160-acre spacing unit comprised of the S/2 S/2 of Section 13. This spacing unit is currently dedicated to the Janie Conner 13-24S-26E RB No. 124H Well (API No. 30-015-43039), and produces from the Pierce Crossing; Bone Spring Pool (50371).

Pursuant to NMAC 19.15.12.7, approved spacing units with diverse ownership are considered separate leases for surface commingling purposes. Matador seeks authority to surface commingle production according to the provisions of NMAC 19.15.12.10.C *from all existing and future wells* in these separate areas of diverse ownership at a surface facility located in the SW/4 SW/4 (Unit P) of Section 14. Pursuant to 19.15.12.10(C)(4)(g), Matador also seeks authority to commingle gas production into the Black River South Trunk Line from future leases with notice provided only to interest owners within future leases. Prior to commingling, gas production from each well will be separately metered using individual test separators with calibrated Daniel Senior Orifice Meters that are manufactured to AGA specifications. Gas production will also be metered at the tank battery prior to sale by a Daniel Senior Meter Tank Battery Check.

Exhibit 1 is a land plat showing Matador's current development and gathering system in the subject area. The plat identifies the wellbores, the spacing units, and the common surface facility located in the SW/4 SW/4 (Unit P) of Section 14. All lands in the S/2 of Section 13 and the S/2 of Section 14 are fee lands.

Exhibit 2 is a completed Application for Surface Commingling (Diverse Ownership) and Off-Lease Measurement Form C-107-B with attachments.

Exhibit 3 is a C-102 for each of the wells currently drilled within the existing spacing units.

Exhibit 4 is a diagram of the surface facilities.

Exhibit 5 is an affidavit of publication directed to interest owners without known addresses.

Exhibit 6 is a list of the working interest, royalty, and overriding royalty interests affected by this request for approval to off-lease measure and surface commingle gas production. A copy of this application with all attachments has been sent by certified mail to all affected parties advising them that if they have an objection they must file it in writing with the division within 20 days from the date the division receives Matador's application.

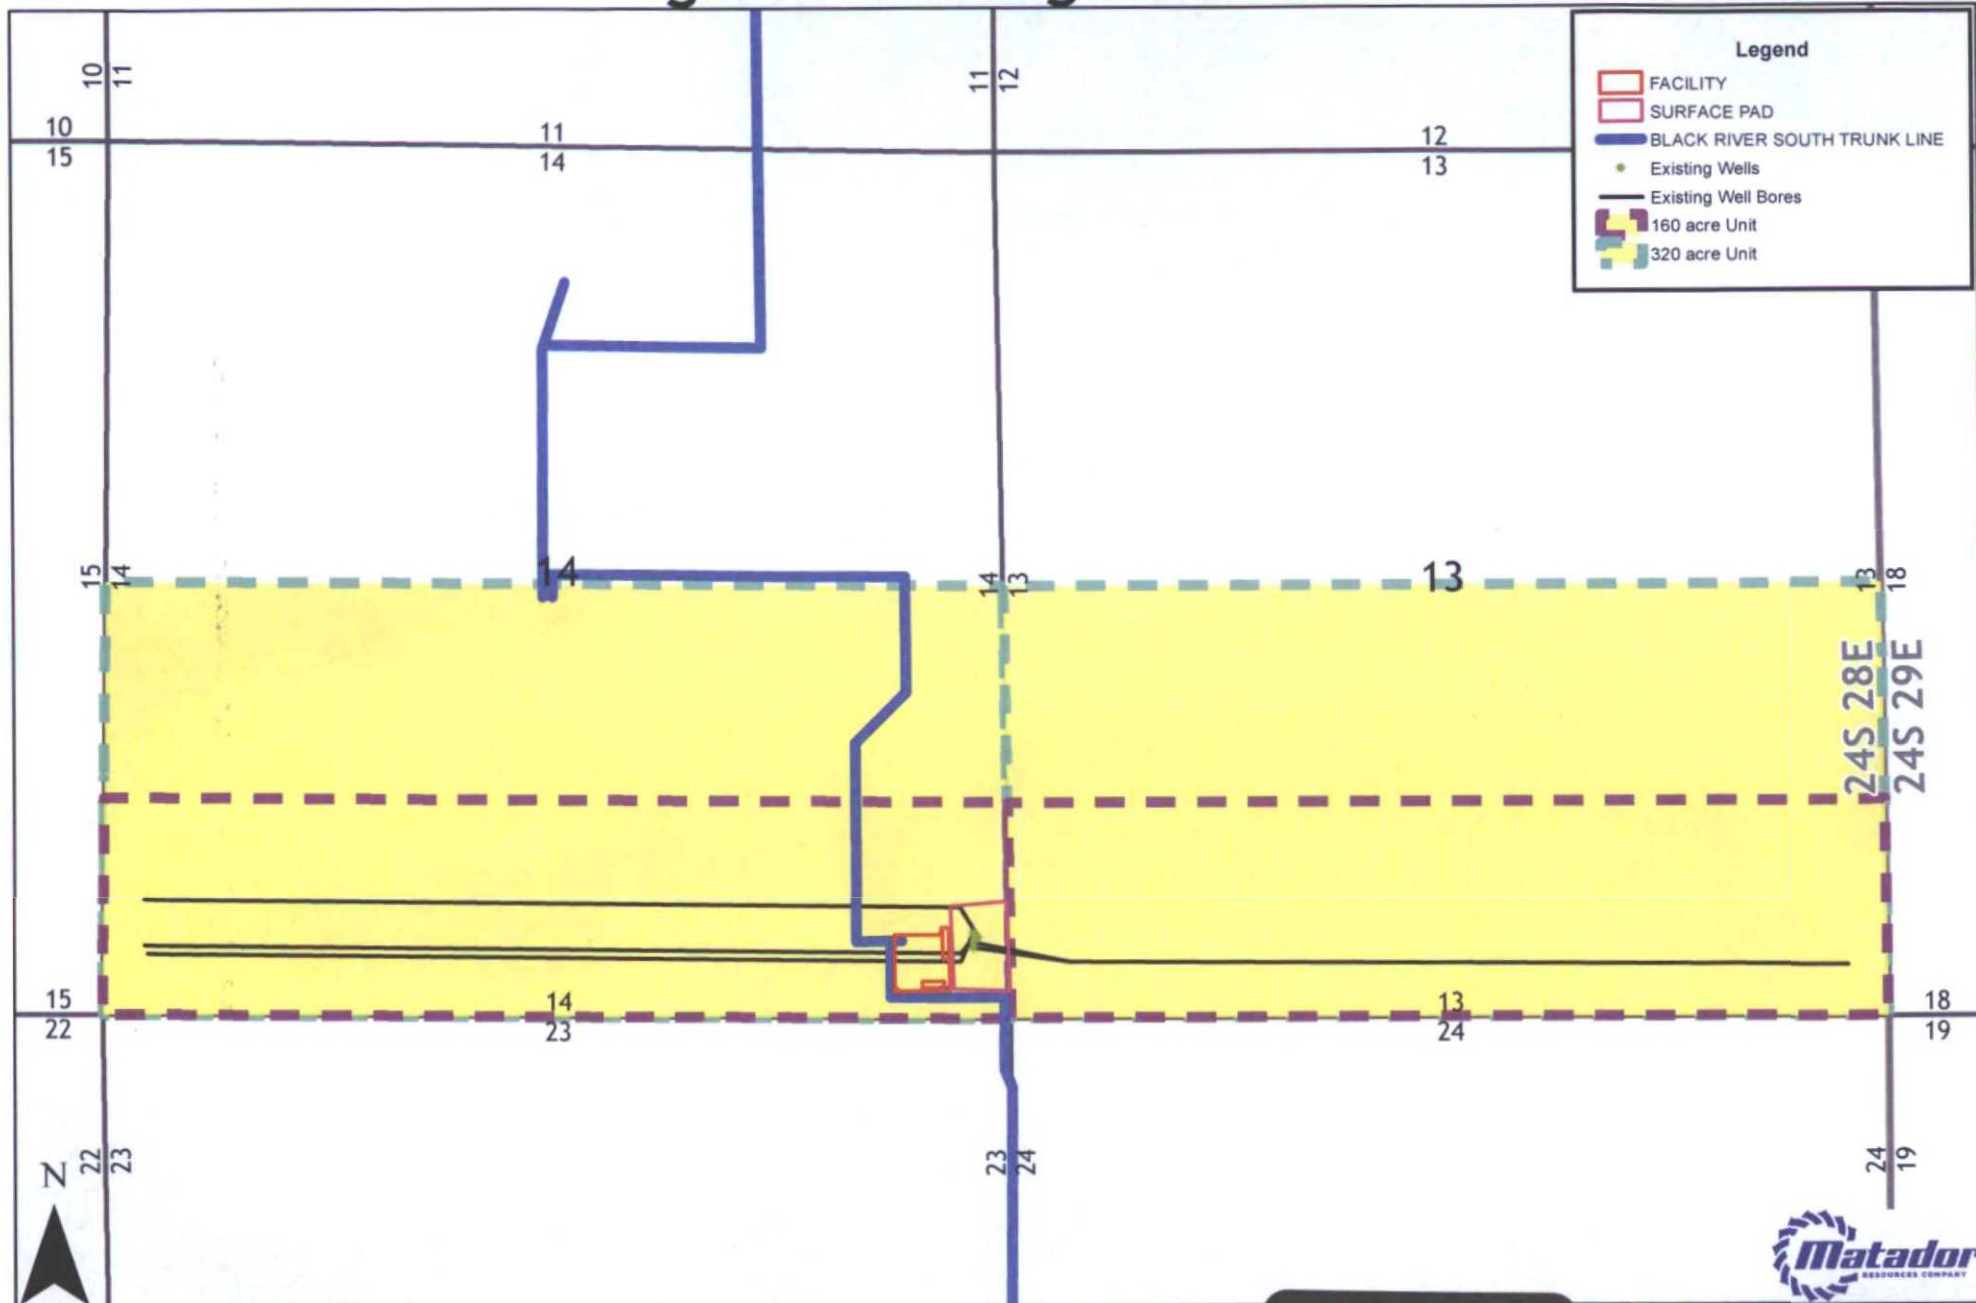

Your attention to this matter is appreciated.

Sincerely,

Jordan L. Kessler

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: Matador Production Company

OPERATOR ADDRESS: 5400 LBJ Freeway Tower 1 Suite 1500 Dallas, TX 75240

APPLICATION TYPE:

☒ Pool Commingling ☒ Lease Commingling ☐ Pool and Lease Commingling ☒ Off-Lease Storage and Measurement (Only if not Surface Commingled)
LEASE TYPE: ☒ Fee ☐ State ☐ FederalIs this an Amendment to existing Order? ☐ Yes ☐ No If "Yes", please include the appropriate Order No. _____

Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling

☐ Yes ☒ No**(A) POOL COMMINGLING**

Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production	Calculated Value of Commingled Production	Volumes
Culebra; WC; South (Gas) Pool (75750)	1256	1252	Using \$2.05/MCF minus processing but uptick in minbtu equals \$1.69/MCF. This is the calculated price per mcf at wellhead times 7170 mcf/d which is average volume of entire battery this past week equals \$12,117.30/day	7170 MCF
Pierce Crossing; Wolfcamp NW (Gas) Pool (96712)	1263			
Pierce Crossing; Bone Spring Pool (50371)	1244			

(2) Are any wells producing at top allowances? ☐ Yes ☒ No.(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☒ No.(4) Measurement type: ☒ Metering ☐ Other (Specify)(5) Will commingling decrease the value of production? ☐ Yes ☒ No If "yes", describe why commingling should be approved**(B) LEASE COMMINGLING**

Please attach sheets with the following information

(1) Pool Name and Code.

(2) Is all production from same source of supply? ☐ Yes ☒ No(3) Has all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☒ No(4) Measurement type: ☒ Metering ☐ Other (Specify)**(C) POOL and LEASE COMMINGLING**

Please attach sheets with the following information

(1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT

Please attached sheets with the following information

(1) Is all production from same source of supply? ☐ Yes ☒ No

(2) Include proof of notice to all interest owners.

Legal Notice

To: Christina Hartley Jones, her heirs or assignees, Raul Graziano, his heirs or assignees, Gerri Gray, his heirs or assignees, John Richardson, his heirs or assignees, Karen Bohannon, her heirs or assignees, Carrie Hall, her heirs or assignees, and any unknown person who has a mineral interest in the S/2 of Section 13 or the S/2 of Section 14, Township 24 South, Range 28 East, NMPM, Eddy County, New Mexico.

Application of Matador Production Company for administrative approval for off-lease measurement and approval to surface commingle (pool-lease commingle) gas production from all existing and future wells within the spacing units comprised of the S/2 of Section 14, the S/2 of Section 13, the S/2 S/2 of Section 14, and the S/2 S/2 of Section 13, Township 24 South, Range 28 East, NMPM, Eddy County, New Mexico. Pursuant to 19.15.12.10(C)(4)(g), Matador also seeks authority to commingle gas production in to the Black River South Trunk Line from future leases with notice provided only to interest owners within future leases. Matador seeks approval to surface commingle gas production at a common tank battery from the Pierce Crossing Bone Spring Pool (50371), the Culebra Bluff WC South (Gas) Pool (75750) and the Pierce Crossing Wolfcamp NW (Gas) Pool (96712) for all existing and future wells. Any objection to this application must be filed in writing within twenty days from date of publication with the applicant and the New Mexico Oil Conservation Division, 1220 South St. Francis

Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division. If you have any questions about this application, please contact Dana R. Arnold, 5400 LBJ Freeway, Suite 1500, Dallas, TX 75240, (972) 437-5284, darnold@matadorresources.com.

Re: Application of Matador Production Company for administrative approval for off-lease measurement and approval to surface commingle (pool-lease commingle) gas production from the spacing units comprised of the S/2 of Section 14, the S/2 of Section 13, the S/2 S/2 of Section 14, and the S/2 S/2 of Section 13, Township 24 South, Range 28 East, NMPM, Eddy County, New Mexico.

Ladies and Gentlemen:

Enclosed is a copy of the above-referenced application which was filed with the New Mexico Oil Conservation Division on this date. Any objection to this application must be filed in writing within twenty days from this date at the Division's Santa Fe office located at 1220 South St. Francis Drive, Santa Fe, New Mexico, 87505. If no objection is received within this twenty-day period, this application may be approved administratively by the Division.

If you have any questions about this application, please contact the following:

Subject: Matador Production Tiger Tank Battery

Jordan:

I received your surface commingle application for the Tiger Tank Battery.

I need the following:

- A brief engineering description of how the wells will be measured.
- Revised C-107B that lists the pool names with the corresponding API gravity and BTU.
- Last 6 month' monthly production and cum production (these are new wells, so some may not have 6 month's production)

Thanks

Mike

Santa Fe, NM 87505

Re: Application of Matador Production Company for administrative approval for off-lease measurement and approval to surface commingle (pool-lease commingle) gas production from the spacing units comprised of the S/2 of Section 14, the S/2 of Section 13, the S/2 S/2 of Section 14, and the S/2 S/2 of Section 13, Township 24 South, Range 28 East, NMPM, Eddy County, New Mexico (the "Lands")

To Whom This May Concern,

Matador Production Company ("Matador"), OGRID: 228937, requests to commingle current gas production from five (5) distinct wells located on the Lands and future production from the Lands as described herein. The gas commingling will occur after individual measurement at each well. Gas exiting each well test flows into one gathering line, the Black River South Trunk Line. Each well on the Lands has and will have its own test separator with an orifice meter manufactured and assembled in accordance with American Gas Association (AGA) specifications. All primary and secondary Electronic Flow Measurement (EFM) equipment is tested and calibrated by a reputable Third party measurement company in accordance with industry specifications.

The orifice meter is the preferred measurement device utilized by midstream and E&P companies in the natural gas business. The gas samples are obtained at the time of the meter testing/calibration and the composition and heating value are determined by a laboratory in accordance with American Petroleum Institute (API) specifications to ensure accurate volume and Energy (MMBTU) determinations. See example from Mitchell Laboratory attached as **Exhibit A** hereto.

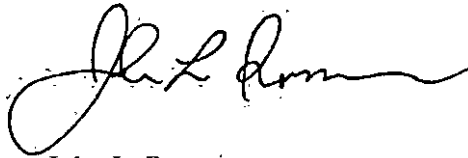

The flow stream from each wellhead is demonstrated in the Process Flow Diagram (PFD) attached as **Exhibit B** hereto. The PFD shows that the water, oil, and gas leave the wellbore and flow into a wellhead test separator which separates the oil, gas, and water. The gas is measured on a volume and MMBTU basis by an orifice meter and supporting EFM equipment in accordance with API Chapter 21.1. The gas is then sent into a gathering line where it is commingled with each of the other wells' metered gas. The gathering line gas is then metered by another orifice meter at the tank battery check to show the total volume of gas leaving the Tank Battery. This meter is tested and calibrated in accordance with industry specifications and

volume and energy are determined on an hourly, daily, and monthly basis. Once the gas exits this final tank battery sales check it travels down an 8" line approximately 6500' to the Third Party Pipeline Sales Connect. The Third Party Pipeline has its own orifice meter that measures the gas for custody transfer. At this point, Matador has its own orifice meter to confirm the measurement for all the commingled gas that is sold. These meters are also calibrated periodically to ensure the measurement accuracy.

In conclusion, all the gas produced on the Lands is and will be metered at each wellhead and allocated correctly using the same measurement equipment as the pipeline sales measurement specifications accepted by API as industry standard.

Very truly yours,

MATADOR PRODUCTION COMPANY
