Dear Mr. Lowe:

Pursuant to Division Rule 19.15.15.13, COG Operating LLC (COG) respectfully requests administrative approval of an unorthodox oil well location for its MYOX 5 State Com #22H well. The producing interval of this well does not meet the 330' from the outer boundary of the producing area requirement. Attached is a Form C-102 showing the project area and the producing area of this well.

COG is seeking approval of the unorthodox location in order to maximize recovery of reserves. The New Mexico Oil Conservation Division's approval of the unorthodox completed interval for the MYOX 5 State Com #22H well will allow for efficient recovery of reserves thereby preventing waste and improving well performance.

The affected offset tracts are the SESW and SWSE of Section 29, T25S, R28E. COG Operating LLC is the designated operator of Section 29. However since all interest may not be uniform throughout the producing area and the affected offset tracts, notice letters have been sent to all interest owners in the affected offset tracts, advising them that if they object to COG's application, they must file a written objection with the Division within twenty (20) days from the date the Division received this application.

Thank you for your consideration of this application. Should you have questions or require further information, please contact me at 575-748-6952 or by email at mwilson@concho.com.

Sincerely,
