By Whom? Matthew L. Pride	Date and Hour 7/16/09 Approx. 2:00 p.m. MST	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

01/11/10
NEED CONFIRMATION SAMPLING FOR VERTICAL ALSO OLD SPILL

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
Nipple on triplex pump broke and caused a saltwater leak; we replaced the nipple on the triplex pump.

Describe Area Affected and Cleanup Action Taken.*
All saltwater was contained inside the diked area around the tank battery. A vac truck picked up the saltwater and properly disposed of it in an offsite commercial disposal well.
*Affected area has been excavated to clean and remediated. Contaminated soil was removed and properly disposed of and fresh dirt was added to the site and appropriately graded.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
