Consolidating our battery facilities will extend the economic life for these wells and lessen surface disturbance. The Clydesdale 5H & 6H have common ownership and will have their own test separator. The Clydesdale 7H & 8H have common ownership and will have their own separator. None of these wells have been drilled yet. Commingling will not reduce the value of production.

Attached is a diagram of the battery facility, a map showing the well locations and the location of the CTB, admin checklist, and notice to all interest owners and publication.
