**Re: Addendum to the Approved Work Plan, Dated 12/16/13
Celero Energy II LP, Priest #1 Tank Battery
Section 1, Township 15 South, Range 37 East
Lea County, New Mexico**

Mr. Leking:

Tetra Tech, Inc. was contacted by Celero Energy II, LP (Celero) to assess the soils at the abandoned Priest #1 Tank Battery located in Unit D, Section 1, Township 15 South, Range 37 East, Lea County, New Mexico (Abandoned Tank Battery). The Abandoned Tank Battery site coordinates are N 33.04994°, W 103.15944°, which is shown on Figures 1 and 2.

Addendum Work Plan

On October 9, 2013, Tetra Tech and Celero met with NMOCD to discuss the initial remediation, sampling and assessment results. Based on the data, the NMOCD requested addition excavation and capping of selected areas to prevent vertical migration of any impact remaining in the subsurface soils. The initial proposed capped areas are shown on Figure 3.

In November 2014, the proposed additional excavation was performed to the appropriate depths as approved by the NMOCD. All of the excavated soil was transported to proper disposal. At this time, the backfilling of the excavations are pending.

At the request of Mr. Darr Angell, all of the excavated areas will be capped with a 40 mil liner at 4.0' to 6.0' in the excavation bottoms. The excavations will then be backfilled with clean soil to grade.

TETRA TECH

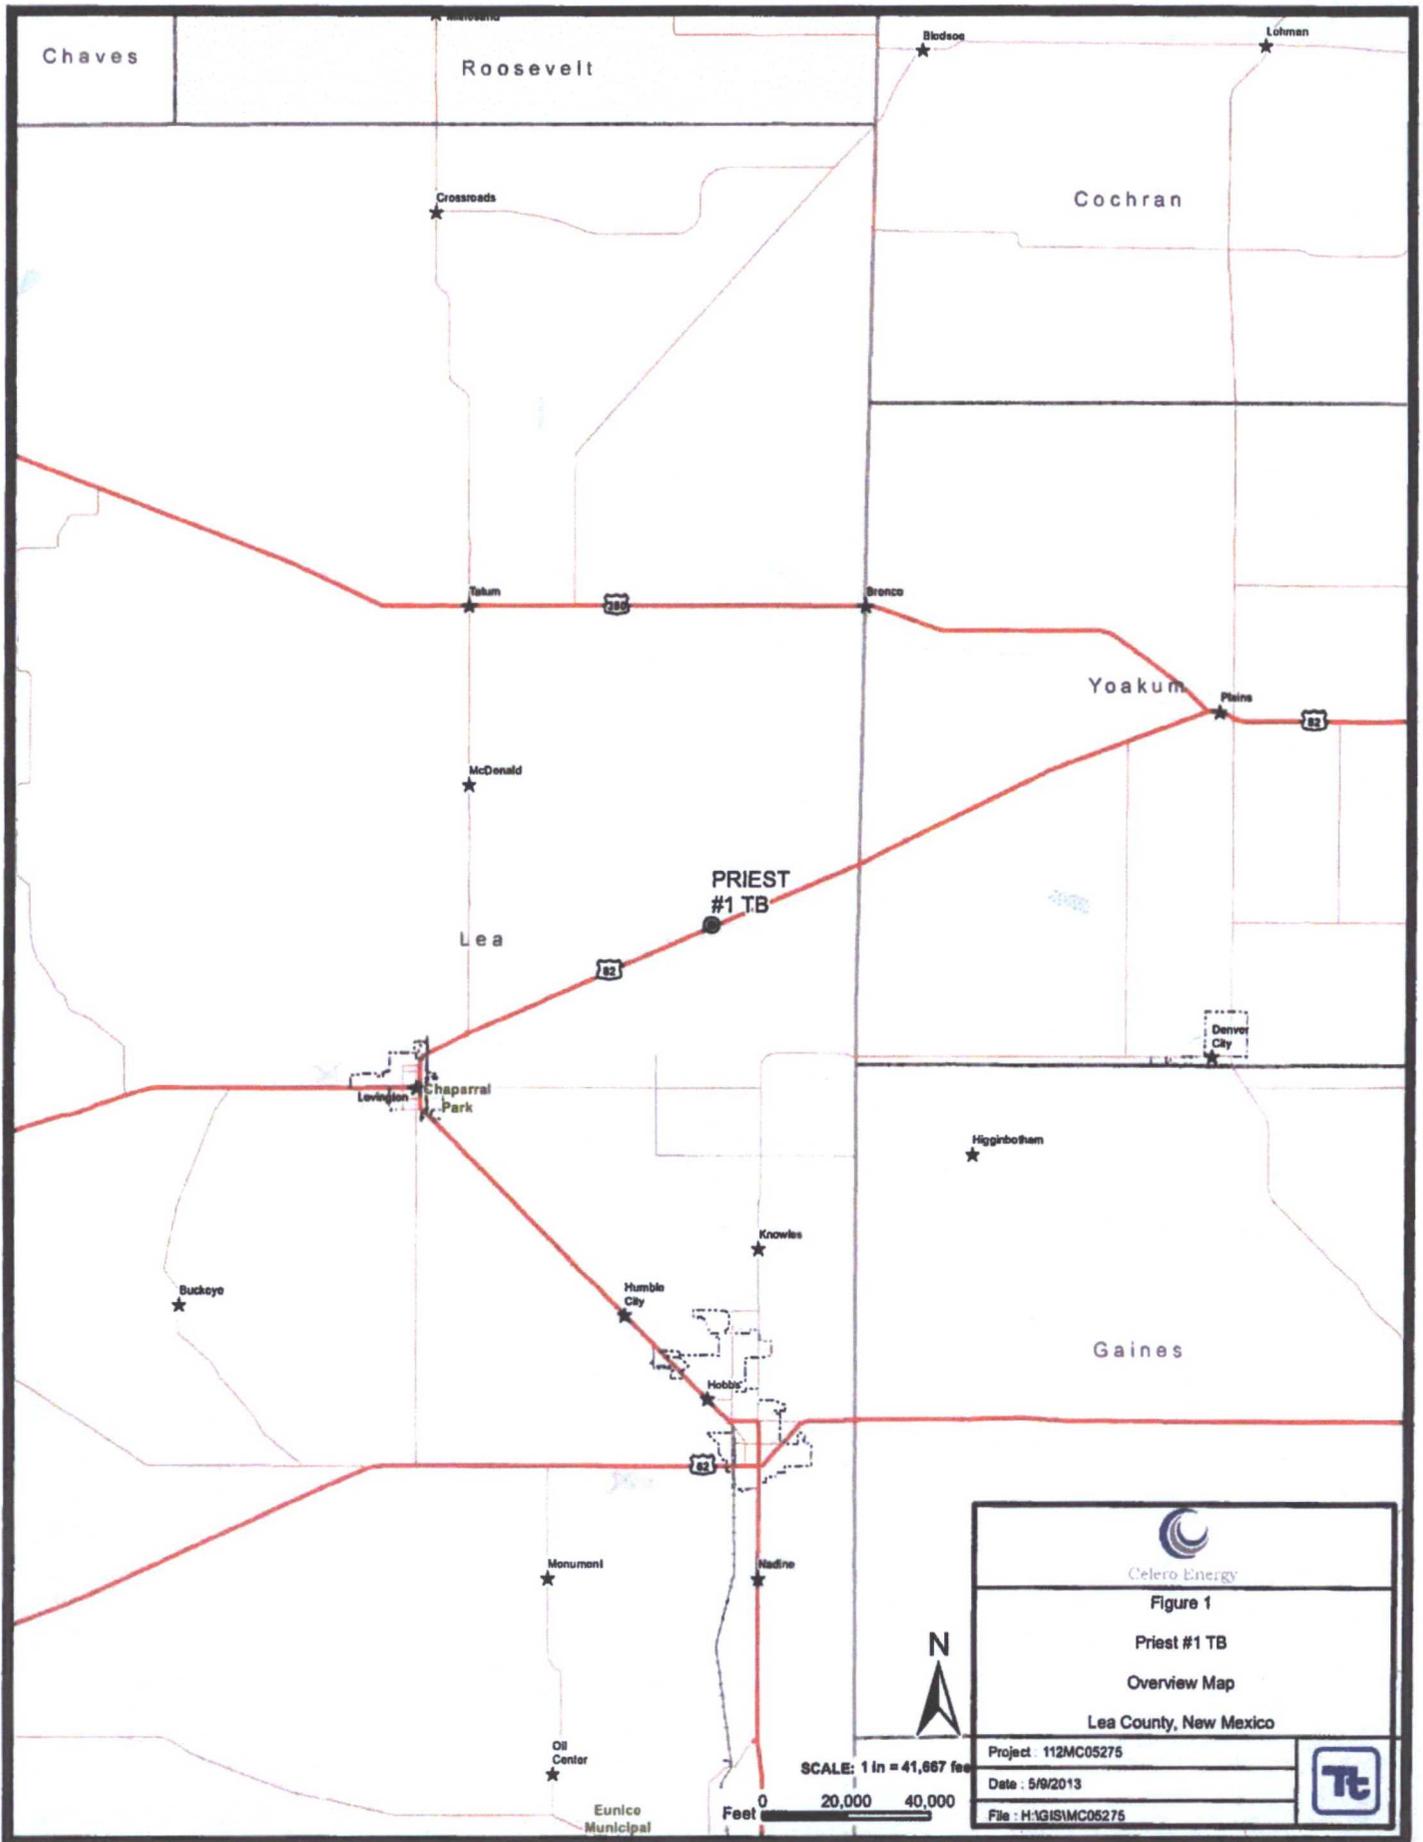

On February 5, 2014, Tetra Tech and Celero met with the NMOCD to discuss Mr. Angell's request to cap the excavations. Mr. Leking approved the capping all of the excavation bottoms with a 40 mil liner as shown on Figure 4.

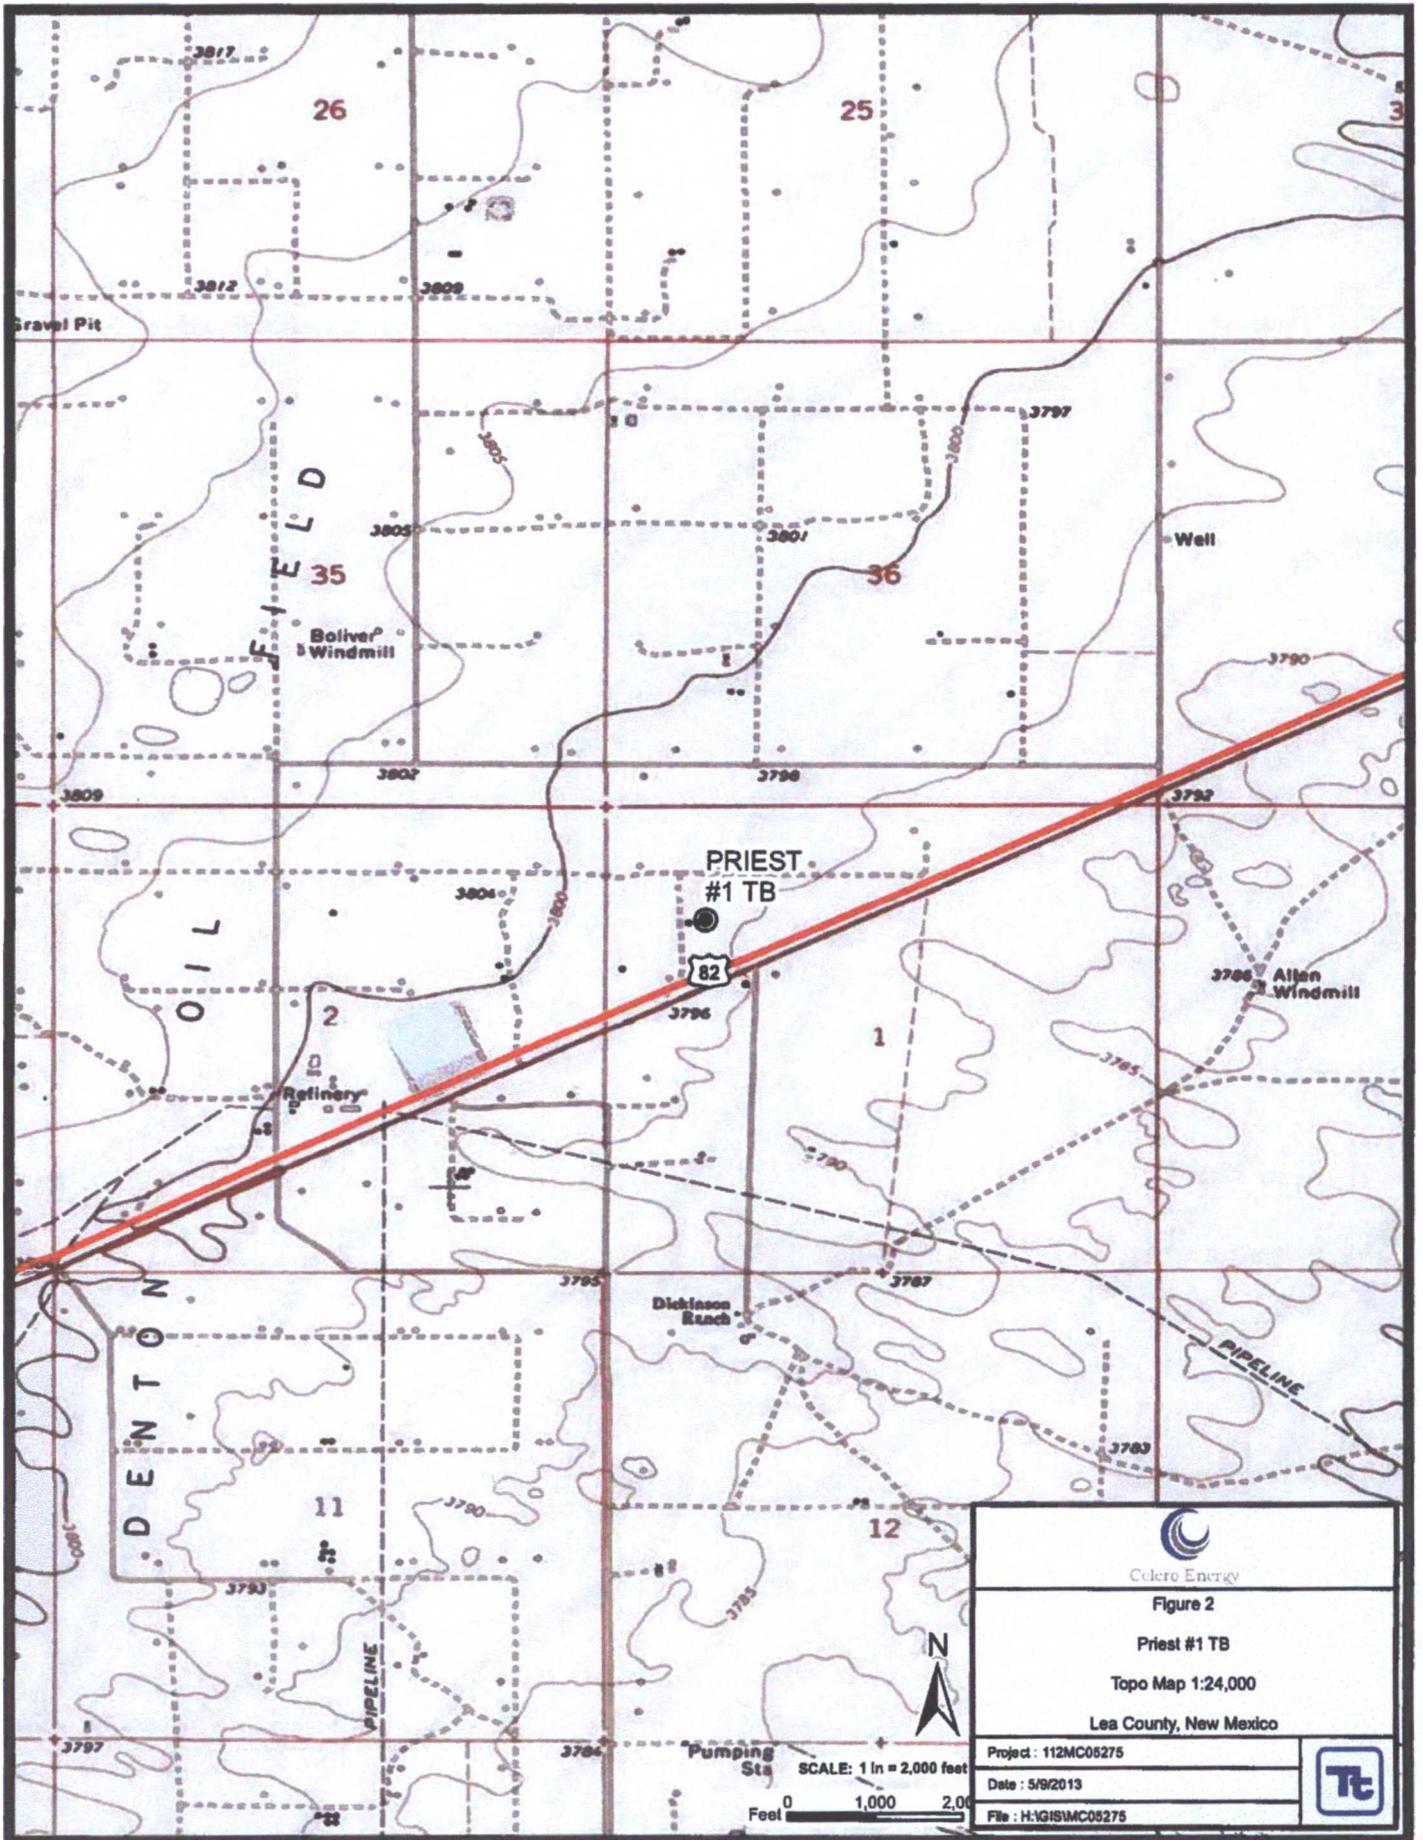

Once the proposed activities are performed, Tetra Tech will prepare a closure report detailing all of the remedial activities that will be submitted to the NMOCD for the final approval and closure of remediation associated with the Abandoned Tank Battery. If you require any additional information or have any questions or comments concerning this work plan, please call at (432) 682-4559.

Respectfully submitted,
TETRA TECH

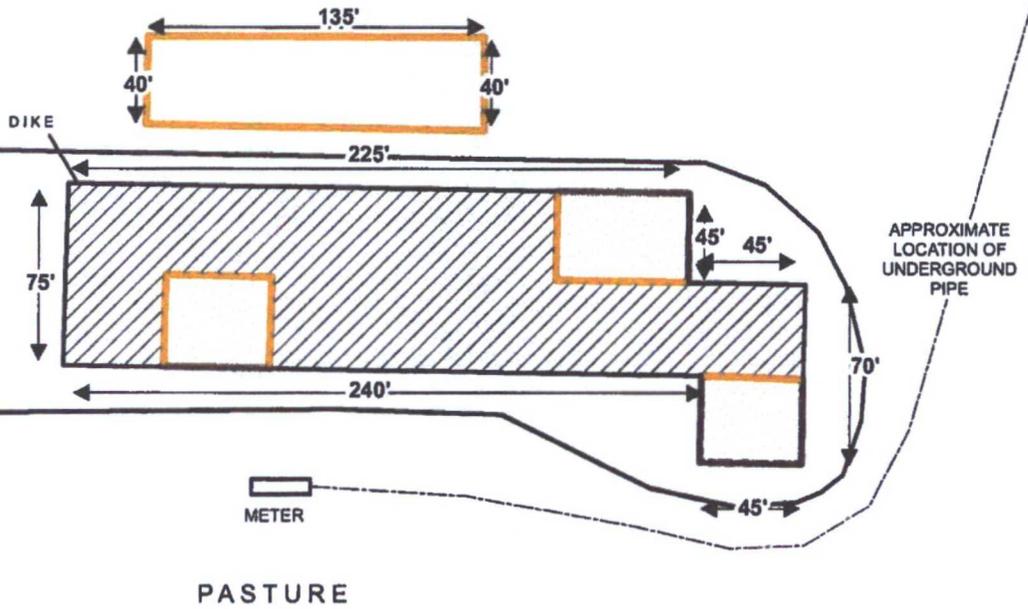

Ike Tavarez, P.G.
Project Manager
