If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
LIGHTNING STRUCK THE FIBERGLASS PRODUCED WATER TANK AT THE BATTERY ON LOCATION.

Describe Area Affected and Cleanup Action Taken.*
FIBERGLASS WATER TANK WAS STRUCK BY LIGHTNING. 32 BBLS OF WATER REMAINED IN THE TANK, 20 BBLS WERE RELEASED IN TO THE FIRWALL. FIREWALL WAS EMPTIED BY G&L ON 8/4/2016. THEY RECOVERED A TOTAL OF 62 BBLS, 32 BBLS FROM THE TANK, 20 BBLS PRODUCED WATER FROM THE FIREWALL AND 10 BBLS RAIN WATER FROM THE FIREWALL. REMOVED ALL DAMAGED EQUIPMENT AND REPLACED THE WATER TANK. WELL HAS BEEN RETURNED TO PRODUCTION.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: 1RP 4412 Pecos Pub State 01 Initial C141

Good Morning,

NMOCD did receive your Initial C-141 for the Pecos Pub State 01 Oil Well. The RP for this event is #4412.

In response to your C-141 dated 8/17/2016. NMOCD approves this C-141 as the Initial only, the reasoning being that this firewall is not lined and needs further testing. NMOCD conducted an on-site inspection on 8/4/2016. The findings showed that the spill was located at both inside the unlined firewall and also outside of the firewall. Please see attached pictures for validation.

- A.) Verify Depth to Ground Water via NMOSE
- B.) Discrete Samples be taken
- C.) Delineation and Remediation work plan needs to be submitted by 10/23/2016.
- D.) Notify NMOCD prior to sampling to provide opportunity for sample witnessing.
- E.) Final C-141 will need to be submitted once all requirements have been met.

An electronic copy of the Initial C-141 will be uploaded to NMOCD website Administrative/Environmental Orders.

An electronic copy of the C-141 is preferred and can be sent to Jamie.keyes@state.nm.us and Kristen.lynch@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
