If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
On the evening of the 21<sup>st</sup> the battery was struck by lightning. A subsequent fire began and the tanks leaked. During the storm rain water caused the produced water to run off of location. A vacuum truck was called and a backhoe to contain the liquid along with the fire dept. to put the fire out.

Describe Area Affected and Cleanup Action Taken.\*  
The affected area is mostly on location with some fluid running down the lease road. The battery has been removed and a work plan is being written. A after delineation and a work plan being approved the area will be remediated.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
