**NATURE OF RELEASE**

|  |   |  |
|--|---|--|
| Type of Release: mixed fluids  | Volume of Release: 20 BBLs                          | Volume Recovered 0                         |
| Source of Release: gas line  | Date and Hour of Occurrence<br>10/14/16             | Date and Hour of Discovery<br>10/14/16 4pm |
| Was Immediate Notice Given?<br><input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required | If YES, To Whom?                                    |  |
| By Whom?   | Date and Hour                                       |  |
| Was a Watercourse Reached?<br><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No  | If YES, Volume Impacting the Watercourse.<br>20 BBL |  |

If a Watercourse was Impacted, Describe Fully.\*

A dry water course, ravine/draw leading to the Pecos River was impacted. However no fluids reached the river.

Describe Cause of Problem and Remedial Action Taken.\*

The line was immediately shut in. Talon/LPE was contracted to perform site assessment and sampling activities. A work plan will be generated and submitted to the NMOCD and BLM for review.

Describe Area Affected and Cleanup Action Taken.\*

The affected area was the draw only. Fluids migrated several hundred feet but did not reach the river. Oil absorbent booms will be placed in the event of rainfall. A sump will be constructed and the impacted portion of the draw will be flushed with fresh water to mitigate impacts as initial remedial actions. The water will be picked up with vac trucks and properly disposed of.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** initial C-141  
**Attachments:** Hawk 8 Fed #46 Gas Line Release Initial C-141.pdf

Hello everyone,

Attached please find an initial C-141 for Lime Rock Resources documenting the release they had on Friday. Sheldon is already coordinating with Shelly. Please let us know if you have any questions or require further information. Thank you.

Respectfully,

**David J. Adkins**
