Source of Release	Casing valve	Date and Hour of Occurrence	3/11/2017 @ 12:45pm	Date and Hour of Discovery	3/11/2017 @ 12:45pm
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	OCD-Mike Bratcher & Crystal Weaver		
By Whom?	Brett Fulks - EHS Professional	Date and Hour	OCD-3/11/2017 @ 5:42pm (via e-mail)		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse			

If a Watercourse was Impacted, Describe Fully.\*  
N/A

Describe Cause of Problem and Remedial Action Taken.\*  
The facility was undergoing maintenance and the flowlines were locked out. A casing valve on a well was left open causing pressure to rise in the flow line resulting in the line rupturing and releasing 1600 mcf of gas. The gas flowline was isolated and the valves on both sides of the flowline were closed to prevent any further release.

Describe Area Affected and Cleanup Action Taken.\*  
N/A

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Good Afternoon,

Please find attached the Initial & Final C-141 and GIS Image of the Lone Tree State 13 Com 2H release of 1600 mcf that occurred on 3/11/2017. Please be advised that the blue dot on the GIS Image represents the approximate location of the origin release.

Please contact me with any questions you may have.

Thank you very much!

Respectfully,

*Sarah Gallegos-Troublefield*

**Subject:** Lone Tree Fed Gas Release Notification

Crystal/Mike,

Just wanted to submit notification of a gas release at the Lone Tree Fed 13. A poly flow line ruptured releasing approximately 1600 Mcf. I tried calling both of your cells and just wanted to send an email to make sure you got the notification.

Thanks,

Brett Fulks
