Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. <i>A Watercourse was not impacted during this event.</i>	

If a Watercourse was Impacted, Describe Fully.\*  
  
*This was a gas only release; therefore, no watercourse was impacted.*

Describe Cause of Problem and Remedial Action Taken.\*  
  
*Pipeline was blown down to facilitate a flow meter connection into the gathering system. There was no liquid associated with this venting of the pipeline.*

Describe Area Affected and Cleanup Action Taken.\*  
  
*None Needed.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Attachments:** eddy.pdf

Good morning Mike,

Due to recent personnel changes and miscommunication on my part, I am submitting these two C-141 Forms for "Gas Only" releases which occurred on Energy Transfer properties. There were no impacts to soil from liquids associated with these gathering system pipeline leaks. If you should have any questions, please don't hesitate to give me a call.

Sincerely,

Johnnie
