If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

*Natural gas was released due to a pipeline leak. Pipeline segment was isolated, blown down, and will be repaired following a standard one-call.*

Describe Area Affected and Cleanup Action Taken.\*

*N/A*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Hi Randy,

Happy Friday! Thank you for the help on this! I didn't see that Lat/Long typo when I was reviewing. I will update it and resend shortly.

I've also added some clarifying comments on the distance measurements....I like using the unit lines because I can get a little more accurate. If it is ok, I'd like to keep using them in future submittals.

Let me know what you think,

Alena

OK - that screenshot clarified things. I think there were two problems:

1. The C-141 listed the Latitude as 32.32000, not 32.2000
2. The footages you reported were from the west line and the south line of "Unit I." Everywhere else in the O&G industry, the footages are measured from the section lines (and hence, the number of feet can be as high as 2640). I'm not sure what to do about the footage issue. BLM has access to the quarter-quarter lines ("Unit boundaries"), but I am not sure that OCD has access to them. Maybe just clarify either by hand notations on the form, or perhaps in the transmitting email or cover letter, that the footages are from the "Unit boundaries." Or you could change to use the O&G standard, and use footages from the section lines.

Please check the location info on your C-141. The Lat-Long you gave correspond to T23S R30E Sec 7 Unit H, and Enterprise has no R/W near there. In your legal location, the footages link to Unit M, not Unit I. There is an Enterprise pipeline near there.

There was a previous release on another pipeline (that I worked with Alena on) in Unit I; Lat-Long 32.20208, -103.91455. Is this the same site?

PLEASE help us out - get your filed operations folks to talk with your realty folks, and report to BLM the R/W ID number (e.g. NM-xxxxx, NMLC-xxxxxxx).
