If a Watercourse was Impacted, Describe Fully.* <i>N/A</i>					
Describe Cause of Problem and Remedial Action Taken.* <i>Natural gas was released due to a pipeline leak. Pipeline segment was isolated, blown down, and will be repaired following a standard one-call.</i>					
Describe Area Affected and Cleanup Action Taken.* <i>Remediation actions will follow the Enterprise Products, General Release Notification, Response and Remediation Plan (March 9, 2015).</i>					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: C-141 form for B-6 Line Leak

Hi Dina,

The following is the C-141 form for the B-6 line leak that occurred on 9/26/2017. Leak was reportable because of the gas loss, not because of the liquid.

<Z:\Facilities\Alena Miro\Carlsbad Area pipeline leaks\2017 Pipeline Leaks\2017-09-26 B-6 Line Leak\2017-09-26 B-6 Line Leak.doc>

I saved all correspondence regarding this line to the applicable folder, but let me know if you need additional information.

I have been told by Operations that they have excavated the leaking segment and are currently working on repairs. They are good with us sending the contractor to sample later this week.

I know this is rushed, but if you could review and approve before you leave Wednesday would be wonderful.

Thanks!

Osman
