David,

Yates Petroleum has recently completed a gas well (API # 30-015-30094) that has a DHC order # 2208. In that order, Yates noted that the well would be in the North Turkey Track- Morrow Gas Pool. However, the well is closer to the South Empire-Morrow Gas Pool. I plan to extend this pool on the next nomenclature. I thought you might need to know this if you need to make any corrections with that order.

Bryan
