RE: Condition of Approval for Extension
Section 30 Recycling Containment and Facility #3RF-3
March 10 – April 9

Dear Mr. Perrin,

Pursuant to Order R-14314, WPX submitted a C-103 for a 6-month extension request for cessation of operations on August 23, 2017, for the Section 30 Recycling Containment and Facility (#3RF-3) located in Section 30, Township 31N, Range 5W, Rio Arriba County, New Mexico. Approval of the 6-month extension was granted by Director David Catanach on August 25, 2017. Conditions of Approval (COA) of the C-103 are listed below. This report is being submitted to satisfy the monthly report requirement.

1.0 Conditions of Approval

Approval of the extension was granted with the following COA:

- 1) Take necessary actions to keep fresh water accumulation within the containment to a minimum and prevent damage from freezing.
- 2) Inspect and take photographs of the Facility weekly.
- 3) In the event of leaks of damage to the Facility, the operator must do the following.
 - a. Notify OCD District III within 72 hours of knowledge of leaks or damage.
 - b. Submit a Corrective Action Plan (CAP) to repair leaks or damage within seven days of notification above.
 - c. Upon OCD's approval of the CAP, complete repairs per the OCD-approved schedule.
- 4) By the 15th of the month, submit monthly reports to OCD District III of inspection results with photographs and progress on CAP's if any.
- 5) Verify liner integrity before returning the containment to service.

2.0 Weekly Inspections

LOGOS continues to monitor the condition of the Section 30 Recycling Containment. Attached is a summary of weekly inspections conducted at the containment from March 10 – April 9. Also attached is a photograph log documenting site conditions during March 10 – April 9.

3.0 Recent Event Summary

- A small volume of water remains in containment due to rain.
- Minimal amount of rain water and snowmelt was pumped from the leak detection over the past month.
- LOGOS pumped 780bbbls fresh water into the leak detection 4/3/18 and 11 leaks were identified. The fresh water was pumped out to storage tanks, the liner allowed to dry and repairs to be conducted on 4/17/18. The liner will be tested again for any further leaks.
- LOGOS personnel continue to search and inspect the liner for any potential areas of concern along the base of the

containment.

**Section 30 Recycling Containment and Facility
April 2018 Monthly Report**

The next report will be submitted to the Aztec office by May 15, 2018. For additional information or questions regarding current site conditions, please contact me at 505-324-4145.

Sincerely,

Tamra Sessions
Regulatory Specialist
