Describe Cause of Problem and Remedial Action Taken.*

A water hauler reported that the Southern Comfort battery had been struck by lightning. The Production Supervisor arrived on location and observed that two enardo valves at each end of the tank battery were on fire. The Supervisor immediately shut both wells and dispatched the fire department; however, the fires self-extinguished before the fire department arrived.

Describe Area Affected and Cleanup Action Taken.*

The wells were shut-in pending enardo replacement and thorough investigation of the facility prior to bringing the wells back online. There was no release of fluids or impact to the ground or containment.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Beware of links/attachments.

Callie,

A C-141 is required. If there was no fluid loss, you can send it as an Initial/Final.

Thank you,

Mike/Ryan,

At approximately 1:00 am this morning, a water hauler reported that the Southern Comfort tank battery had been hit by lightning. The Production Supervisor arrived on location and observed that two enardo valves at each end of the tank battery were on fire. The Supervisor immediately shut both wells and dispatched the fire department, but the fires self-extinguished soon after.

There was no release of fluids on the ground or any clean-up. The enardos will be replaced. I wanted to send this but also ask if you all would like me to continue with a C141?

Thank you,

Bratcher, Mike, EMNRD
