**Subject:** RE: Rover Operating C-141

Brady,

Based on the footages provided on the C-141, we will assign this release to the Solt St 2 well (30-015-25278). It is noted that the C-141 lists 20 bbls released with 20 bbls recovered. 100 % recovery is typically not possible unless the release is in a lined containment of some sort. Also noted, you indicate samples will be taken to Cardinal Labs. We will need, at minimum, a scaled site map showing where and what depth samples were obtained. Please provide that information as soon as possible.

If you have any questions, let me know.

Thanks,

Mike Bratcher  
NMOCD District 2  
811 South First Street  
Artesia, NM 88210

All,

Please see the attached C-141 spill report regarding a spill that occurred on Rover's Solt State lease on 6/28/2018. If you have any questions, please contact myself or Keri Clarke at (214) 234-9115, or email at either [bwilton@roverpetro.com](mailto:bwilton@roverpetro.com) or [kclarke@roverpetro.com](mailto:kclarke@roverpetro.com).

Thank you,

Brady Wilton
